1	Audit walk comments July 2019 – Arrienne And actions from walk on 14.11.19	All recommendations from previous visit have been actioned with the exception of: Visitor signing in arrangements, which remain the same. The school is not in a position to move to electronic registration of visitors, however to use a carbonless paper solution would be more cost effective as well as comply with GDPR. Below is a link to a system that could be purchased and will greatly help minimise the PII data on display: • https://www.amazon.co.uk/Cherry-Carbonless-Confidential-Visitor-Duplicate/dp/B07DX9RT58 • www.thecardnetwork.co.uk/visitor-management/visitor-contractor-reception-passes/school-visitor-passes.htm Please direct visitors to the school's Privacy Notice on the school's website. This could be a simple poster at the main reception hatch. Actions from walk on 14.11.19: Special Resource Base – files found on an open bookshelf named 'Assertive Mentoring' containing EYFS assessment data relating to milestones achieved, showing dates and other student attainment details. These files were clearly visible on entering the room. The Headteacher gave assurance that only staff have access to the SRB however DPE recommend that such files should be securely stores or at the very least, should be placed in a less visible position within the room. Year 1 & 2 – Both the Gym Register and the Story Book Register contained first name and surname – please revert to first name only. School Office – A file containing student allergy information was at the rear of the office but not visible to visitors. The room is only accessed via secure entry and only certain staff have access. Care must be taken to ensure that such information is not inadvertently available to visitors as medical information is a special category of data requiring the strictest of controls.

2	DPE website and best practice areas	DPE best practice areas, compliance checklists, SLAs and compliance manager discussed/demonstrated with the school. At time of visit the school started to complete various checklists. The checklists can be used to record and show GDPR progress to governors and support consultants during visits.
3	Staff training	ACTION: Leadership Team to review and complete checklists – Autumn Term 2019 DPE has e-learning modules that are part of the school's subscription. The school attended initial GDPR workshops some time ago, however DPE recommend that the Leadership Team and senior admin complete DPE Module 1 GDPR training. GDPR training should be embedded in staff induction programme Note: Bite size training on SARs and Breaches will be available soon – notified via 'news' tab on the DPE website. ACTION: Leadership Team and Senior Admin should complete GDPR Module 1 training – Autumn Term 2019
4	Compliance manager	Reports can be uploaded and documentation read/reviewed by staff: DPE/Tools/Compliance manager. ADVISORY: If required, the school can upload staff list in Compliance Manager to enable the management overview of key documents/policies being 'read and understood' by the assigned staff.

1	Data mapping to support the Record of Processing (RoP) tool	As the DPE Record of Processing tool is being launched shortly, the school will wait for this to start data mapping and for record management. DPE have provided around 100 generic processes that can be mapped for each school with appropriate sub-processes. DPE will be completing webinars and remote sessions from September 2019 to support schools with the process.
		IT Provider details: ICT Solutions MIS Provider: Pupil Asset

Item	Technical measures	Follow on actions/comments
1	Website / Prospectus	Introduce a procedure in place for cleansing website and the Headteacher acknowledges the requirement to cleanse website of images of students who have left the school. DPE recommend that any newsletters older than 12 months should be archived. DPE understand that a school prospectus is a significant investment and that after a period of time, it is likely that images of students who may have left, remain in the prospectus – this is acceptable as long as the student images are only used for the original purpose of their collection. Please refer to DPE Photo and Video guidelines for more detailed advice.
2	Servers and back ups	School data is backed up back-up disk and managed by Anglia IT. The main school server is situated in a server room which is locked School will be investing in new hardware including server, this will be ideal time to introduce a procedure for cleansing. There are mini data cleanse routines performed at the time of any significant change to the network or staff profile. The school observes an effective retention schedule and only keeps out of date images and photos/videos required for archiving and historical purposes Safeguarding record re managed by CPOMS, this includes historical information under archive. School is aiming to eliminate all SEND / Safeguarding hard copies.
3	Cyber essentials	Policy downloaded during visit. Recommend IT provider completes. ADVISORY: School to request IT Technician completes Cyber Essentials Questionnaire – Autumn 2019.
4	Cloud computing	School is using Office 365
5	Laptops & Cameras	ADVISORY: LM suggested that a DPIA is completed if there are any proposed changes to current arrangement. All school laptops are regularly accounted for. They are encrypted and password protected and kept in locked cabinet. Student laptops are not encrypted as they don't leave the school site. Student laptops are kept in a locked laptop trolley. Cameras will be used in accordance with the DPE Photo and Video guidelines.
