
School Visit Report**Audit Date:** 11/02/20**Report:** Year 2 visit 2**DPE:** Stuart Lee**School member:** Kristina Hailes (main visit) Chris Hoy (after school)

1. Visit details

In addition to the audit walk, key GDPR documentation was reviewed and DPE best practice areas were discussed/demonstrated with the school. The school has started to complete the online checklists. The schools Privacy Notice was sent to SL for review and updating (attached). The school has already completed the main GDPR compliance documents.

SL confirmed he will complete an awareness session for governors on 9 July 2020. SL will support the school with the completion of the governor checklist (downloaded during visit) which the school can then use as a working document. The school were signposted to the bitesize training modules and it was suggested the school can start to roll out to staff members, specifically the clear desk and physical security training, which will support best practice in school.

The CCTV policy was sent to dpo@dataprotection.education for review. It was noted that the base unit is situated in the front office and images were on display. It was suggested the school complete the CCTV best practice area of the DPE website.

Cyber essentials questionnaire was downloaded during the visit for the IT technician to complete.

Audit walk findings

An afterschool walk was completed after the last full governors meeting (09/01/20). Afterschool walks are useful in identifying risks that would not necessarily be identified with walks completed during the day. The school has contract cleaners who were on site during the afterschool walk. The walk identified a number of data risks. These were recorded and fed back to staff by Chris. Chris alerted staff and sent out a reminder of the main points staff needed to be aware of:

- Locking laptops/PCs
- Potable device security and use of memory sticks
- Ensuring sensitive data was secure in drawers and cabinets
- Returning sensitive folders

The DPE best practice guide was distributed during the visit and will be displayed in school.

2. Compliance actions that should now be completed

Initial documents:

- Privacy Notice
- GDPR Policy
- Data Breach Procedure.
- SAR procedure
- Photo and Video consent

Ideally you would also have: Work away from school, clear desk and screen, information classification and record management policy/paperwork. Schools have either adopted the DPE models or incorporated some of this within their staff handbook, for example, work away from school.

The following should also be completed:

- There should be no named person on any of the above documents. If there is a named person i.e. Stuart Lee, the name needs replacing with: Data Protection Education Ltd;
- The Privacy Notice should have an appendix with your third-party suppliers listed. If using GDPRiS this should also be kept updated. You should also make sure suppliers are GDPR compliant;
- The Privacy Notice, GDPR Policy and consent withdrawal form should be displayed on the school website;
- All staff should know what the data procedure is, and the document should be circulated to all staff;
- Key staff responding to SARs should have access to the SAR procedure and understand their responsibilities.

2.1. Data retention schedule:

By now you should be working through both physical and electronic data and have a good understanding of what data you hold and be documenting this. There are a number of documents available to support the process:

- Governor hub: annual review of school data and safe data destruction checklist
- IRMS toolkit: https://c.ymcdn.com/sites/irms.site-ym.com/resource/collection/8BCEF755-0353-4F66-9877-CCDA4BFEEAC4/2016_IRMS_Toolkit_for_Schools_v5_Master.pdf
- DfE toolkit
https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/747620/Data_Protection_Toolkit_for_Schools_OpenBeta.pdf (Annex 5.1)

2.2. Staff training

GDPR training should be completed and documented. If not already you should:

- Rollout training to key staff and then consider all staff completing the e-learning training;
- Add as part of the induction process for new staff;
- Use staff meetings/briefings to raise staff awareness.

2.3. Governance check

It should form part of governance that GDPR is an item at governor meetings and to share reports with governors. Ideally the governor responsible for GDPR will have completed some form of GDPR training.

2.4. Make sure DPE is your registered DPO with the ICO

Not only do you need to be registered as a controller with the ICO, it is a requirement to register who your DPO is. The guide to complete this is available from the News section of the DPE website: <https://kb.dataprotection.education/news-top/news/83-best-practice-updates/110-make-sure-dpe-is-your-registered-dpo-with-the-ico>

3. Freedom of Information and Publication Scheme

The DPE GDPR policy and FOI policy content refer to the organisation having a publication scheme - do you have one? **The template for a model publication scheme can be obtained from:** <https://ico.org.uk/media/for-organisations/documents/1235/definition-document-schools-in-england.pdf> How to complete a publication scheme guide can be obtained from: <https://ico.org.uk/media/for-organisations/documents/1242/how-to-complete-template-guide-to-info-for-schools.pdf> Additional guidance can be obtained from the news section of the DPE website: <https://kb.dataprotection.education/news-top/news>

4. Technical measures

DPE recommends schools complete the Cyber essentials questionnaire available from: DPE>Resources> Information Technology Security: <https://kb.dataprotection.education/best-practice-library/documents/information-technology-security/7-crest-cyber-essentials-questionnaire>;

Check iPad/Tablet security. Are all laptops encrypted, does your end of day routines include housekeeping to remove data no longer needed and is equipment secured? Do staff still use unencrypted memory sticks? DPE recommends schools develop procedures to ensure iPads can be accounted for daily and data (i.e photos) can be cleared if lost or stolen ([Erase your device](#))

5. Next steps

Record of Processing (RoP) tool and data mapping

DPE have started to populate the Record of Processing (RoP) tool. Rather than each school complete individually, DPE will be populating as many processes as possible and then work with you to complete for your school. It is a requirement under article 30 of the GDPR and will form part of the basis for future remote sessions and visits.

5.1. Data Protection Impact Assessments (DPIA)

When processing high risk personal data and using new technologies (i.e. moving to a new technology for Safeguarding) a DPIA should be completed and the DPO consulted (Article 35.2). DPIAs offer a risk assessment template where concerns can be noted alongside mitigating actions to reduce the overall risks related to change of practice. It is good practice to complete a DPIA for any major project where the processing of personal data is required. DPE will be providing more guidance, training and include risk management within the RoP tool. Always contact DPE in the first instance.

6. Norfolk County Council Summer GDPR audits

NCC auditors completed several themed GDPR audits during the summer term 2019. DPE have provided feedback to the findings which can be obtained from the News section of the DPE website: <https://kb.dataprotection.education/news-top/news>
