
Caister Infant School Audit Report**Audit Date: 02/03/20****Report: Year 2 visit 3****DPE: Stuart Lee****School member: Andrea Dix (SBM) and Gillian (head of support services)**

1. Visit details

The first part of the visit was to attend a meeting with Andria and Gillian. This was to explain the benefits of and detail of the DPE service. Gillian oversees support services for the newly formed federation. The schools have restructured and will work closely together as a federation. The school now has a head of school. The Junior school does not buy in to the service and would be looking at buying in as a federation if they were to continue with the service. Gillian is the named DPE for the Junior school.

The second part of the visit was spent with Andrea reviewing the previous report and to signpost the school to:

- Work away from school documentation;
- Records management policy;
- ICT classification guidance;
- Consent withdrawal – to display on the school website;
- Bitesize training.

The school has completed their publication scheme since the last visit.

The following to be actioned from discussions with Andrea:

- Add Data Breach and SAR to shared folder for staff;
- School to appoint a GDPR governor;
- Cyber essentials questionnaire – school to chase up with JC Comtec.

SL to send Andrea the following:

- RoP master list to check against that of the school;
- Guidance for governors and clerks documentation.

The school uses cloud computing and we discussed DPIAs and best practice. Regarding technical security Andrea had already sent the cyber essentials questionnaire to JC Commtec for completion.

Due to only recently federating with the Junior School a new governor is yet to be appointed with GDPR responsibilities. The Junior school do not have a DPE subscription. SL and the school to follow up with James England. The school has contract cleaners and caterers (NORSE).

1. Audit walk findings

No audit walk was completed. School confirmed actions from the previous visit are either completed or in the process of; additional storage purchased; school scans documents and utilises their MIS rather than adding sensitive data to pigeonholes and signage is displayed near to the visitor sign in book to inform visitors where they can access the school's privacy notice from.

2. Compliance actions that should now be completed

Initial documents:

- Privacy Notice
- GDPR Policy
- Data Breach Procedure
- SAR procedure
- Photo and Video consent, guidelines and records

Ideally you would also have: Work away from school, clear desk and screen, information classification and record management policy/paperwork. Schools have either adopted the DPE models or incorporated some of this within their staff handbook, for example, work away from school.

The following should also be completed:

- There should be no named person on any of the above documents. If there is a named person i.e. Stuart Lee, the name needs replacing with: Data Protection Education Ltd;
- The Privacy Notice should have an appendix with your third-party suppliers listed. If using GDPRiS this should also be kept updated. You should also make sure suppliers are GDPR compliant;
- The Privacy Notice, GDPR Policy and consent withdrawal form should be displayed on the school website;
- All staff should know what the data procedure is, and the document should be circulated to all staff;
- Key staff responding to SARs should have access to the SAR procedure and understand their responsibilities.

2.1. Data retention schedule:

By now you should be working through both physical and electronic data and have a good understanding of what data you hold and be documenting this. There are a number of documents available to support the process:

- Governor hub: annual review of school data and safe data destruction checklist
- IRMS toolkit: https://c.ymcdn.com/sites/irms.site-ym.com/resource/collection/8BCEF755-0353-4F66-9877-CCDA4BFEEAC4/2016_IRMS_Toolkit_for_Schools_v5_Master.pdf
- DfE toolkit
https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/747620/Data_Protection_Toolkit_for_Schools_OpenBeta.pdf (Annex 5,1)

2.2. Staff training

GDPR training should be completed and documented. If not already you should:

- Rollout training to key staff and then consider all staff completing the e-learning training;
- Add as part of the induction process for new staff;
- Use staff meetings/briefings to raise staff awareness.

2.3. Governance check

It should form part of governance that GDPR is an item at governor meetings and to share reports with governors. Ideally the governor responsible for GDPR will have completed some form of GDPR training.

2.4. Make sure DPE is your registered DPO with the ICO

Not only do you need to be registered as a controller with the ICO, it is a requirement to register who your DPO is. The guide to complete this is available from the News section of the DPE website: <https://kb.dataprotection.education/news-top/news/83-best-practice-updates/110-make-sure-dpe-is-your-registered-dpo-with-the-ico>

3. Freedom of Information and Publication Scheme

The DPE GDPR policy and FOI policy content refer to the organisation having a publication scheme - do you have one? **The template for a model publication scheme can be obtained from:** <https://ico.org.uk/media/for-organisations/documents/1235/definition-document-schools-in-england.pdf> How to complete a publication scheme guide can be obtained from: <https://ico.org.uk/media/for-organisations/documents/1242/how-to-complete-template-guide-to-info-for-schools.pdf> Additional guidance can be obtained from the news section of the DPE website: <https://kb.dataprotection.education/news-top/news>

4. Technical measures

DPE recommends schools complete the Cyber essentials questionnaire available from: DPE>Resources> Information Technology Security: <https://kb.dataprotection.education/best-practice-library/documents/information-technology-security/7-crest-cyber-essentials-questionnaire>;

Check iPad/Tablet security. Are all laptops encrypted, does your end of day routines include housekeeping to remove data no longer needed and is equipment secured? Do staff still use unencrypted memory sticks? DPE recommends schools develop procedures to ensure iPads can be accounted for daily and data (i.e photos) can be cleared if lost or stolen ([Erase your device](#))

5. Next steps

Record of Processing (RoP) tool and data mapping

DPE have started to populate the Record of Processing (RoP) tool. Rather than each school complete individually, DPE will be populating as many processes as possible and then work with you to complete for your school. It is a requirement under article 30 of the GDPR and will form part of the basis for future remote sessions and visits.

5.1. Data Protection Impact Assessments (DPIA)

When processing high risk personal data and using new technologies (i.e. moving to a new technology for Safeguarding) a DPIA should be completed and the DPO consulted (Article 35.2). DPIAs offer a risk assessment template where concerns can be noted alongside mitigating actions to reduce the overall risks related to change of practice. It is good practice to complete a DPIA for any major project where the processing of personal data is required. DPE will be providing more guidance, training and include risk management within the RoP tool. Always contact DPE in the first instance.

6. Norfolk County Council Summer GDPR audits

NCC auditors completed several themed GDPR audits during the summer term 2019. DPE have provided feedback to the findings which can be obtained from the News section of the DPE website: <https://kb.dataprotection.education/news-top/news>
