Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school.

Step 2 - a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data.

Step 3 – online workshops and group sessions to support schools with further individual sessions as needed.

Note: a number of reporting functions are available via the RoP tool and include a detailed retention schedule as well as details of the lawful basis for process. The tool is still being developed and will shortly be able to produce risk reports.

RoP - Progress to date

At the time of this meeting, the following RoP was reviewed, amended and tailored to reflect the actual practice at the school:

- FIN13 Payroll Process – New Starter
- FIN14 Budget Setting
- FIN17 Audit Process
- FIN05 Payroll Process – Overtime and Contract Changes

RoP - Next Steps

LM will supply a generic list of third parties/software providers and the school will be asked to highlight those used by the school.

This information will then be imported by DPE to your school's records on Knowledge Bank .
Details of the third parties will then appear in your organisation's RoP as a list when adding third party suppliers.

LM to arrange a meeting in the Autumn Term 2021 to review progress in the school's completion of the finance related RoPs and identify / prioritise HR RoPs for completion.

The focus of this meeting will be to:

Work through various HR related RoPs to tailor them to reflect the actual practice at Edmund de Moundeford Primary.
