

School: Carleton and Forncett Federation **Date:** 08/06/2021

Report: Remote consultation

DPE: Stuart Lee **School member:** Vicky Brosnihan and Rachael Burrows

Consultation details

- Review of previous actions and audits (what to look out for)
- Compliance (documents) and checklists
- Review of training and running reports
- Information security - cyber essentials and NCSC training
- Electronic internal audit (making the rounds)
- Record of processing (RoP) - next steps

Priorities from the consultation are detailed below:

Review of previous report(s)

The federation has completed most of the actions from previous consultations. Both Vicky and Rachael (data leads) are staff governors and report to the governing board on GDPR matters. The federation has the main compliance documents on the school websites with each school having a dedicated section for GDPR which supports transparency and is good data protection practice. One action, the Cyber essentials questionnaire is to be followed up on and the federation are looking at ways to improve the inclusion of all staff receiving GDPR training i.e. include at INSET training, to follow Safeguarding training.

Compliance checklist and documents

The compliance best practice area/checklist (<https://dataprotection.education/index.php/best-practice-library/best-practice/commitment-to-compliance>) can be used to manage progress, print off reports for Trustees/Governors and support consultants during visits/remote consultations.

Note: The compliance checklist was demonstrated and updated for the school (federation) during the consultation.

Actions:

- Adopt the latest **DPE Privacy Notices**. There are now separate Privacy Notices for: Workforce, General and Students and there is now a child friendly notice. In addition, update the documentation on the federation/school website (available from the compliance best practice area).
- Add the Publication scheme and FOI policy to the Forncett GDPR section of the website.
- Information classification guidance - Vicky confirmed this is completed. The federation can add to the GDPR section of the federation website or, if prior to September, add to individual school websites.

Note: the federation to complete Privacy Notices in preparation for the new federation website in September 2021. The school will then have all policies on the federation website.

Review of training

Actions:

- Review additional training modules to be completed by staff (Work away from school and NCSC etc).

Note:

- Staff have completed NSPCC training and Rachael believes online risks were covered. The federation to consider DPEs NCSC e-learning module for new staff.
- The federation is to consider GDPR refresh training as part of INSET and develop a method to deliver training for part time staff i.e. midday supervisors, possibly using INSET.

Information security - cyber essentials and NCST training

Actions:

- As there have been some security concerns within the sector, ask your IT provider to complete the cyber essentials questionnaire: <https://dataprotection.education/best-practice-library/documents/information-technology-security>

Note: Vicky to check if this has already been sent to their IT provider (JCCOMTEC).

Electronic internal audit (making the rounds)

Demonstrated the online walk during the consultation.

Actions:

- The school has the option to complete their own end of day walk and report findings back to staff (raising awareness).

Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school - **completed: 08/06/21.**

Step 2 - a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data - **arranged for: 24 June 2021.**

Step 3 – online workshops and group sessions to support schools with further individual sessions as needed.

Note: a number of reporting functions i.e. risk reports will shortly be available.

Q&As

Rachael - do the federation (schools) need to send privacy notices out as paper copies, or can they add information with links to where these can be obtained on the school (federation) website. **SL** - this is fine as long as the information is clear and transparent as to where to obtain the notices and paper copies made available if needed.

Vicky - can the federation have only one overall account rather than individual schools which will make it easier to complete the RoP and support efficiencies. SL to speak to Kalina to consolidate the accounts -**actioned**.
