

School: Necton VA Primary School

Date: 22/06/2021

Report: Record of Processing - Online Meeting

DPE: Linda Mortimer

School members: Tania Freestone, School Secretary

Consultation details

- Overview of recent cyber security attacks in Norfolk schools and how to mitigate
- Advice re DPE online training “Staying Safe Online”
- Example of a generic Finance RoP
- How the school’s use of personal information is mapped using the RoP tool
- Demonstration of the master lists, including roles, IT hardware and software
- Reporting functions of the RoP
- Demonstration of Making the Rounds – app that can be used to carry out a GDPR audit walk – with results recorded in Knowledge Bank

An overview of the RoP was provided with a review of who is responsible for which key areas of financial management. Currently the Headteacher works in full consultation with the school’s designated Financial Support Officer to oversee key areas such as Reconciliation of the monthly Payroll and Budget Setting. It was agreed that LM will complete these RoPs for the school and will continue to work with Tania on the remaining relevant RoPs.

LM confirmed that as requested at the time of our last meeting on 12 November 2020, RoPs for have been uploaded to the school’s RoP area in Knowledge Bank:

- Parents Evening Comms – Set up (Management of the School)
- Reporting to the Governing Body (Management of the School)
- Visitor Books and Signing In Sheets (Facilities)
- Visitors Electronic Signing In (Facilities)

The RoPs reporting functions were also explored and it was noted how this could help in general school management ie retention schedules available in one step, as well as tailored Privacy Notices

The school’s use of third parties/software suppliers was also discussed and Tania will review their current list and provide an updated version to DPE. This information can then be uploaded to the RoP by DPE.

Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school’s individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school. This was provided at the meeting held on the 12.11.20.

Step 2 - a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data. This was provided at the meeting on the 22.6.21 with Tania.

RoP - Progress to date

At the time of this meeting, the following RoPs were reviewed, amended and tailored to reflect the actual practice at the school:

- FIN09 Reconciliation of monthly payroll (LM completed for the school)
- FIN06 Payroll Process – Leavers
- FIN13 Payroll Process – New Starter
- FIN14 Budget Setting (LM completed for the school)

RoP - Next Steps

Tania will compile a list of third parties/software used by Necton Primary and LM will help provide links to the relevant Privacy Notices.

LM is currently compiling a generic list of third parties/software providers and the school will be asked to highlight those used by the school.

This information will then be imported by DPE to your school's records on Knowledge Bank.

Details of the third parties will then appear in your organisation's RoP as a list when adding third party suppliers. Once this list is imported it will enable the automatic generation of the school's Privacy Notice.

A further online meeting was arranged for the 19 October 2021 .

The focus of this meeting (19.10.21) will be to:

To further complete relevant Finance RoPs and prioritise HR RoPs to be tailored for Necton. Review reporting functions of the RoP tool and consider whether any other third parties/software providers should be added to the school's master list.
