Cyber Security

The issue of cyber security was discussed at the time of the meeting following recent cyber attacks in a number of Norfolk schools. DPE recommend that schools request their ICT Technician to complete the latest Cyber Security Questionnaire (available on Knowledge Bank) to highlight any weakness in the local systems.

DPE strongly recommend that all staff complete DPE's online training 'Staying Safe Online' and 'Password Security' as soon as possible.

Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school was provided during discussions on the 10.6.21, when the online meeting was not possible due to technical difficulties.

Step 2- at the time of the meeting on the 24.6.21 a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data.

Step 3 – online workshops and group sessions will take place, to support schools with further individual sessions as needed.

Note: a number of reporting functions i.e. risk reports will shortly be available.
