

School: Heartwood Primary

Date: 19/07/2021

Report: Remote consultation

DPE: Linda Mortimer

School member: Emily McMillen, Headteacher

Consultation details

- Review of Cyber Security and how to avoid breaches; review of training that will help mitigate the risks
- Review of GDPR refresher training
- Review of the school's existing policies, including the Data Protection Policy. Reminder re Child Friendly Privacy Notice that are now available on Knowledge Bank
- Publication Scheme – brief overview and book a further appointment to concentrate on tailoring the generic document for Heartwood
- Progress with the RoP & the Master Lists - discussion re the master lists required for populating the RoP
- Review of progress with the Compliance Checklists
- Audit walk template

Priorities from the consultation are detailed below:

- 1. Review of Cyber Security** there have been a number of cyber attacks in Norfolk schools recently and it is important to take all necessary steps to avoid this happening. DPE recommend that all staff complete the 'Staying Safe Online' and 'Password Security' online training available on Knowledge Bank.
DPE also recommend that schools ask their IT support provider to complete the 'Cyber Essentials Questionnaire' if not already actioned as this should help highlight any deficiencies in the hardware/network set up at the school.
- 2. Training:**
 - The ICO recommends that all staff complete general GDPR training on a 2-yearly basis. The vast majority of staff at Heartwood have completed the GDPR Refresher course. DPE recommend that all staff complete the 'Staying Safe Online' and 'Password Security' training also available on Knowledge Bank and this will help raise awareness to support robust cyber security.
- 3. Update the GDPR Policy and Privacy Notices** Heartwood are operating with a DP Policy and Privacy Notice that included COVID-19 related information.
Following advice from the ICO issued earlier this year, DPE now have separate Privacy Notices for: Workforce, General and Students as well as a child friendly notice.
- 4. Publication scheme:** The school has the option of adopting DPEs model publication scheme (please refer to section 3). LM will make a separate appointment to work with Denise Allen (Business Support Officer) to adapt the standard document for Heartwood.

-
5. **Record of Processing (RoP) & the Master Lists:** LM worked with Denise Allen on 29.4.21 to review Finance RoPs and tailor to reflect actual practice at Heartwood. LM will now send Denise a master list of third party suppliers that may be used by the school. Once the school has confirmed which third parties are used, their details will be uploaded into Knowledge Bank and will help with generating the self-populated Privacy Notices.
 6. **Compliance action best practice area/checklist and governor best practice area:** The compliance best practice area/checklist can be used to manage progress, print off reports for Governors and support consultants during visits/remote consultations.

At the time of the meeting the Headteacher confirmed that she will work with the GDPR Governor to recommence completing these lists.

7. **Internal audit walks:** At the time of the last online meeting it was suggested the school could complete their own end of day walk and report findings back to staff (raising awareness) and the school has used the hard copy form.
LM demonstrated the online audit walk template. The Headteacher has decided she will use this audit walk template at the same time she completes the school's Health and Safety walk and this will involve the same governor for both these areas of school management.

Links and additional guidance in order of priority actions detailed below:

1. GDPR policy update and Privacy notice updates

The latest GDPR policy and Privacy Notices can be located from the compliance best practice area:

<https://dataprotection.education/index.php/best-practice-library/best-practice/commitment-to-compliance>

Regardless of adopting the very latest documents your current privacy notice and policy should now include sections for COVID-19 - refer to the July 17 update: <https://dataprotection.education/index.php/best-practice-library/best-practice/coronavirus>

2. Setting staff up for e-learning training and mini training guides

You should now be reviewing training i.e. GDPR refresher, data breaches and work away from school. You can check which staff have or have not completed the various modules by selecting the reports from your dashboard: <https://dataprotection.education/manager-reports?view=reports>

Users can be set up on the system by adding individually or importing as a group:

<https://dataprotection.education/student-list/users>) Kalina at DPE (client support) is here to help you and can be contacted for support at: kalina.voyvodova@dataprotection.education

The dashboard now has mini training videos for many of the main areas, including data breaches and SARS. There is also a data breach and SAR best practice area where all the information is now situated.

3. Publication scheme

The publication scheme has now been updated and as a public authority you should have one. **The updated guidance can be obtained from:** <https://dataprotection.education/news-top/news/83-best-practice-updates/182-model-publication-scheme-amendments-improvements-and-updates>

Updated publication schemes can be obtained from: <https://kb.dataprotection.education/index.php/best-practice-library/best-practice/freedom-of-information>

4. Audit walk

As we are unable to visit at present it is worth considering completing your own internal walk. You can check against previous report findings to identify improvements or areas that still need to be improved. You can also use the best practice guides to support the process: <https://kb.dataprotection.education/best-practice-library/documents/drip-feeds/57-dpe-quick-reference-guid>

5. Record of Processing (RoP)

The RoP will start to be used for your record of processing. DPEs methodology for rolling out the RoP can be found here: <https://kb.dataprotection.education/news-top/news/94-siteupdates/175-record-of-processing-rop-supporting-information> The RoP can be used for risk assessments (DPIAs), especially where new technologies are being introduced. Always email: dpo@dataprotection.education for support if needed.

Next steps:

We will work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school. This was provided at a previous online meeting with Emily and Denise in Spring Term 2021.

Step 2 - a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data. This was carried out in a separate 1:1 meeting with Denise in Spring Term 2021. A further appointment will be made for Autumn Term 2021 to continue with completing the Finance RoPs.

Step 3 – online workshops and group sessions to support schools with further individual sessions as needed.

Note: a number of reporting functions i.e. risk reports will shortly be available.

6. Compliance checklist and governance

A reminder that the **compliance checklist** can be used to support ongoing compliance, supporting consultants during remote sessions and for monitoring with governors. Reports can be printed from the compliance checklist: <https://kb.dataprotection.education/index.php/best-practice-library/best-practice/commitment-to-compliance> There are many more checklists that you'll find useful.

In addition, the governor best practice and terms of reference can also be used to support compliance if needed: <https://kb.dataprotection.education/index.php/best-practice-library/best-practice/governors-and-data>
