Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool was carried out at the meeting held on the 9.6.21. A brief overview of the generic process relating to financial/management of the school.

Step 2 - a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data. This was carried out at the meeting held on the 21.7.21.

Step 3 – online workshops and group sessions to support schools with further individual sessions as needed.

Note: a number of reporting functions are available via the RoP tool and include a detailed retention schedule as well as details of the lawful basis for process. The tool is still being developed and will shortly be able to produce risk reports.

RoP – At the time of the meeting on the 9.6.21

The following RoPs were reviewed, amended and tailored to reflect the actual practice at the school:

- FIN09 Reconciliation of monthly payroll
- HR06 New starter

RoP – At the time of the meeting on the 21.7.21

The following RoPs were reviewed, amended and tailored specifically for financial management of the school:

- FIN13 New Starter
- FIN14 Budget Setting
- FIN07 Financial Audit
- FIN05 Payroll Processing

The RoP for processing maternity pay was reviewed and it was agreed that this did not apply to the school.
