

School: Browick Road Primary School

Date: 23/06/2021

Report: Record of Processing - Online Meeting

DPE: Linda Mortimer

School members: Julie Clarke, Finance Officer

Consultation details

- Overview of the school's requirement to comply with Article 30 of the GDPR
- How the personal information is mapped using DPE's RoP tool
- Example of a generic RoP
- Demonstration of the master lists, including roles, IT hardware and software
- Reporting functions of the RoP
- Feedback re DPE online workshops
- Q and As

Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school. This took place at the meeting on the 13 May 2021 with Paula and Pauline

Step 2 - a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data.

Step 3 – online workshops and group sessions to support schools with further individual sessions as needed.

Note: a number of reporting functions are available via the RoP tool and include a detailed retention schedule as well as details of the lawful basis for process. The tool is still being developed and will shortly be able to produce risk reports.

RoP - Progress to date

At the time of this meeting on the 23.6.21, the following RoPs were reviewed, amended and tailored to reflect the actual practice at the school:

- FIN09 Reconciliation of monthly payroll report
- FIN14 Budget Setting
- HR06 New Starter

RoP - Next Steps

A further meeting has been arranged with Julie Clarke (Finance) for the 22 September, when we will continue to populate Finance related RoPs

LM will supply a generic list of third parties/software providers and the school will be asked to highlight those used by the school.
