Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your Trust's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school with a specific focus on creating an RoP for online payment system; Parent Pay. Acting on a request from Andriana Sneddon, this took place at the meeting on the 21 July 2021 with Kirsty.

Step 2 - a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data.

Note: a number of reporting functions are available via the RoP tool and include a detailed retention schedule as well as details of the lawful basis for process. The tool is still being developed and will shortly be able to produce risk reports.

RoP - Progress to date

At the time of this meeting on the 9.9.21 a review was undertaken to identify which RoPs would be relevant to reflect the practice at Northgate. The following RoPs have been created and tailored to reflect the actual practice at Northgate:

- FIN20A/M Online payment system (Parent Pay)
- FIN21A Processing petty cash reimbursement

Following discussion at the time of the meeting it was decided that no further meetings are required unless Kirsty identifies further processes that involve her using, sharing, storing information which contains personal data/information. At this point we are happy to provide support and guidance.
