

School: Denver VC Primary

Date: 14/09/2021

Report: Remote consultation

DPE: Linda Mortimer & Lindsey Smith

School members: Louise Jones, Headteacher, Annette de Vanche, Secretary

Consultation details

- DPE website/best practice including: staffing changes and updating on the DPE website
- Review of previous actions and audits - what support is needed i.e. documentation etc
- Compliance (documents) and checklists
- Review of training and running reports
- Information security - cyber essentials and NCSC training
- Electronic internal audit (making the rounds)
- Record of processing (RoP) update and next steps
- Confirm future appointments and/or RoP session(s)
- Q and As

Priorities from the consultation are detailed below:

DPE website/best practice including staffing changes

Actions:

- Set up new staff on the DPE website and delete leavers: DPE dashboard>users>add staff, either manually or bulk import. Kalina at DPE (client support) is here to help you and can be contacted for support at: kalina.voyvodova@dataprotection.education.

In Summer 2020 the school changed its email provider. LM will contact Kalina to provide support and to ensure that email addresses are correctly updated to avoid losing any training records which are attached to the old email system.

Review of previous report(s) and outstanding actions

Actions from online meeting on held on 21.4.20 and follow up on 3.11.20

- In September 2020 the school uploaded a Data Protection Policy including Covid guidance
A further review of the DP Policy will take place in the Autumn Term 21 to ensure the latest DP Policy is available and will go to Governors in the December 2021 meeting.

In September 2020 the school provided an up to date Privacy Notice including a list of third parties, presented as an appendices. A further review of the Privacy Notice will take place in the Autumn Term 2021 to ensure the latest Privacy Notice is published and will go to Governors in the December 2020 meeting.

Training – all staff have now completed the GDPR 101 training and the Headteacher will timeline the GDPR refresher training.

Actions from online meeting held on 14.9.21

In light of latest guidance from the ICO and data protection code of practice; The Children's Code (in place from 2.9.21) school to review and consider adopting the child friendly Privacy Notices available on Knowledge Bank.

Compliance checklist and documents

The compliance best practice area/checklist (<https://dataprotection.education/index.php/best-practice-library/best-practice/commitment-to-compliance>) can be used to manage progress, print off reports for Trustees/Governors and support consultants during visits/remote consultations.

Actions:

- Review the best practice checklists and update information. This can be used as a dashboard, reflecting the school's progress in GDPR and shared with Governors.
- **Work away from school policy - if not already it is good practice to have one.** School to ascertain which staff work from home, what data they access and how data is handled, which will support risk management for working out of school (policy available from the compliance best practice area).
- Please check you are happy that you now have all of the initial compliance documents i.e. **SAR procedure and data breach procedure.** Do all staff understand your organisation's data breach procedure? Review the DPE consent guidance and consent forms; does data displayed around school and on the website correlate with your current documentation? Is there data still displayed of leavers?

Review of training, setting up staff and running reports

Actions:

- Review when staff should complete their GDPR Refresher training (ICO recommend this should be completed on a 2 yearly basis). A 20-minute GDPR Refresher is available on Knowledge Bank.
- Other additional training modules to be completed by staff in January 2022 Inset to include:
Staying Safe Online
Password Security

Information security - cyber essentials and NCST training

Actions:

- As there have been some security concerns within the sector ask your IT provider to complete the cyber essentials questionnaire: <https://dataprotection.education/best-practice-library/documents/information-technology-security>
- Consider staff completing the DPE NCSC stay safe online training.

Electronic internal audit (making the rounds)

Demonstrated the online audit walk during the consultation.

Actions:

- The school has the option to complete their own end of day walk and report findings back to staff (raising awareness). A demonstration was provided at the time of the meeting.

Record of Processing (RoP) - and DPE methodology

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school.

Step 2 - a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data.

Step 3 – online workshops and group sessions to support schools with further individual sessions as needed.

Note: a number of reporting functions i.e. risk reports will shortly be available.

Some reports were demonstrated at the time of the meeting. The reporting function relies on information extracted from the third party lists which are to be provided by the school and then imported into the school's records on the DPE website. This will enable tailored Privacy Notices to be generated at the press of a button.

RoP Progress to date:

Several Finance and HR RoPs have been completed and a further meeting has been arranged to work with the school secretary to continue with this work.

Q&As

The school asked about which data protection related policies should be on the website. LM confirmed that the Data Protection Policy and Privacy Notice are both required by the ICO and Ofsted, however there are many other data protection based policies/procedures that are good practice to have in place ie the Freedom of Information Policy, Data Breach Procedure, Information Classification, Records Management Policy etc. Please note there are other policies that the school should have in place but don't necessarily have to be published on the school's website ie Working Away from School Policy, Password Policy, Acceptable Use Policy– please see note above.

The school asked about the recording of staff vaccination / testing status. This is being recorded on the secure access .GOV Covid 19 record, which holds anonymous staff records relating to rapid testing figures and results. There is also further guidance under the News section on Knowledge Bank.

The school asked whether DPE have a generic Online Safety Policy – it was recommended that they refer to the Acceptable Use Policies found under the Best Practice Library / Resources. LM will check with SL to confirm whether there are other resources available.

Email sharing with the PTA was discussed and it was decided to remain with practices currently in place to ensure the mitigation of risk is maintained.

Regarding distribution of the Flu Job: the NHS are currently requesting schools to distribute blank forms to parents requesting a considerable amount of personal data and for this data to be returned to the school.

Distribution methods were discussed and possible risks ie completed forms may be lost in transit exposing personal data. The school are well aware of the associated risks and will take all necessary steps to safeguard the gathering, transit, collating and sharing of such data.
