

School: Sheringham Primary

Date: 21/09/2021

Report: Remote consultation and RoP Review

DPE: Linda Mortimer & Lindsey Smith

School members: Zoe Law, Senior Finance Officer

Consultation details

- Future support and planning for meetings
- Electronic internal audit (making the rounds)
- DPE website - including news relating to the 'The Children's Code'
- Compliance documents including the Data Protection Policy, Privacy Notice and introducing a Child Friendly Privacy Notice – this will be covered by Lindsey in November meeting
- Information security - cyber essentials and NCSC training
- Record of processing (RoP) update and next steps
- Confirm future appointments and/or RoP session(s)
- Q and As

Future Support from DPE

In light of the new ways of working established since the lockdown of March 2020, DPE have found that online 1:1 meetings have been very productive and very well received by the majority of schools. DPE are proposing that this new way of working will continue, with a view to limiting the risk of DPE consultant's spreading Covid. Management meetings can be arranged when a consultant can visit the school site, but in a Covid secure manner ie after school / restricted to one office.

An important part of visiting schools had been to carry out an audit walk of the school with this in mind there is now an online tool 'Making the Rounds' available on Knowledge Bank, which allows schools to self-audit the school premises. This was demonstrated at the time of the meeting.

DPE website/best practice including news updates

There is a new look to the dashboard and previous details relating to Tickets / SARs / Data Breaches / FOIs have been archived, but can still be accessed in the same way.

The school will work with Lindsey to complete some of the outstanding Compliance Checklists as well as review the school's current Data Protection Policy and Privacy Notice.

LM highlighted the news section relating to the Children's Code, which came into force on the 2.9.21 and how this code will impact on the security aspects of Education Technology providers as well as apps/games/platforms used by children, also including Facebook, Tik Tok, Instagram and other social media.

LM advised that the Headteacher and SLT read the full ICO statement (link available on KB website, News section) relating to The Children's Code otherwise known as "Age Appropriate Design Code".

Review of training & Cyber Security

Zoe confirmed that most staff have completed their GDPR Refresher training (ICO recommend this should be completed on a 2 yearly basis).

In light of recent cyber attacks on Norfolk schools, DPE recommends that NCSC Staying Safe Online training is completed and Zoe confirmed that most staff have done so, during lockdown. However, it is recommended that cyber security is kept in the forefront of everyone's mind and the issue raised at staff meetings.

DPE recommend that all schools check with their IT support provider that their systems are robust and ask that their provider completes the following Cyber Essentials Questionnaire:

Information security - cyber essentials

Actions:

- As there have been some security concerns within the sector ask your IT provider to complete the cyber essentials questionnaire: <https://dataprotection.education/best-practice-library/documents/information-technology-security>

Phishing Tools - DPE are currently developing phishing tools, where the school can run tests to see how staff respond to phishing emails. These will be available shortly, and Lindsey will demonstrate when she meets with the school later this term.

Record of Processing (RoP) - and DPE methodology

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - The school has now completed the majority of relevant RoPs relating to financial management.

Step 2 – A more in depth look at RoPs relating to HR management took place at the time of the meeting on the 21.9.21. A further meeting will be arranged to complete a suite of HR RoPs.

Step 3 – online workshops and group sessions to support schools with further individual sessions as needed.

Note: a number of reporting functions i.e. risk reports will shortly be available.

The following RoPs were completed at the time of the meeting on 21.9.21.

HR01	Pre-Employment Checks
HR05	Managing the Single Central Record
