Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school. This took place at the meeting on the 13 May 2021 with Paula and Pauline and a further meeting with Julie Clarke on 23.6.21

Step 2 - a more in depth look at the Finance RoPs with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data. This took place at the time of the meeting on the 22.9.21 with Julie Clarke.

Step 3 – online workshops and group sessions to support schools with further individual sessions as needed.

Note: a number of reporting functions are available via the RoP tool and include a detailed retention schedule as well as details of the lawful basis for process. The tool is still being developed and will shortly be able to produce risk reports.

RoP - Progress to date

At the time of this meeting on the 22.9.21, the following RoPs were reviewed, amended and tailored to reflect the actual practice at the school:

FIN15M	Payroll process for contract changes
FIN12M	Payroll process for overtime and expense claims
FIN13A/M	New Starter
FIN06A/M	Leavers

RoP - Next Steps

A further meeting has been arranged with Julie Clarke and Paula Silverstone for the 26 January 2022 when we will identify how responsibilities for HR functions are allocated within the school.

Linsey Smith will make an appointment with the Headteacher to carry out a GDPR general compliance review.
