

School: Pilgrim Federation Date: 06/10/2021

Report: Remote consultation

DPE: Stuart Lee School member: Tom Snowdon (HT) and Rachel Brooks

Consultation details

1. Compliance (documents) and checklists
2. DPE website/best practice including staffing changes and training
3. Electronic internal audit (making the rounds)
4. Record of processing (RoP) update and next steps

TS is new to the executive head post and is now supported by RB who is experienced in the DPO role. Part of the remote session was spent demonstrating the DPE website; making best use of the best practice areas; using the dpo@ email and logging SARs/data breaches. Follow on actions/discussions from the consultation are detailed below:

1. Compliance checklist and documents

- The compliance best practice area/checklist can be used to manage progress, print off reports for Trustees/Governors and support consultants during visits/remote consultations: <https://dataprotection.education/index.php/best-practice-library/best-practice/commitment-to-compliance> - **refer to previous report**
- Remove the 2019 privacy notices from the school website. Consider having a separate data protection section on the federation website. Example layout can be obtained from: <https://www.trowseprimaryschool.co.uk/key-information/gdpr>

Ideally you would now have the following documents displayed on the federation website:

- Data protection policy
- Privacy notices; general; pupils; child friendly notice; workforce (or display workforce notice internally)
- SAR and data breach procedure
- Consent guidance and withdrawal form
- Publication scheme - **refer to previous report**
- Work away from school policy - if not already it is good practice to have one - TS to check.
- Data retention - continue using the IRMS retention schedule across the federation. For electronic folders; staff to check electronic folders regularly and periodically complete a data cleanse. The same process for checking data can be used for the federation/schools website.

2. DPE website/best practice including staffing changes and training

- Set up new staff on the DPE website and delete leavers: DPE dashboard>users>add staff. Kalina at DPE (client support) is here to help you and can be contacted for support at: kalina.voyvodova@dataprotection.education.
- Review additional training modules to be completed by staff (GDPR refresh and NCSC etc).

Note: The educational sector continues to be targeted by cyber criminals. For this reason it is recommended that staff complete DPE NCSC online training at some point. GDPR refresh training should ideally be completed every 2 years. Quick reference guides and staff briefings/meetings can be used to continue to raise staff awareness.

1. Electronic internal audit (making the rounds)

Demonstrated the online walk during the consultation. The federation has the option to complete their own end of day walk and report findings back to staff (raising awareness) - **refer to previous report**

2. Record of Processing (RoP) - and DPE methodology

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice - **refer to the previous report**.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school - completed 6/10/21

Step 2- a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data.

Step 3 – online workshops and group sessions to support schools with further individual sessions as needed.

Note: a number of reporting functions i.e. risk reports will shortly be available.

Actions:

- Set RB up on the system as an administrator - actioned
- Arrange an RoP focus session with RB

Note: discussion took place relating to the federation having a consistent approach for processing and how DPEs RoP can support the process.
