

School: Wicklewood Primary & Nursery

Date: 04/11/2021

Report: Autumn Term Agenda

DPE: Linda Mortimer

School member: Alison Trigg

Consultation details

- Review of recommendations from previous meeting - Cyber Security
- Review of compliance documents including the Data Protection Policy and Privacy Notice
- DPE website and how to access archived reports / and making staffing changes – adding or deleting
- Information regarding The Children's Code
- Review of training and running reports
- Electronic internal audit (making the rounds)
- Record of processing (RoP) update and next steps
- Confirm future appointment

Review of recommended actions from previous meeting on 24.6.21

Cyber Security- Information security was discussed at the time of the previous meeting, as a result of increasing cyber-attacks in a number of Norfolk schools. There was a 142% increase in cyber incidents in schools in July 2021 and the ICO recognise that the educator sector is at increasing risk of such attacks.

- Discussed at the time, DPE recommend that schools request their ICT Technician to complete the latest Cyber Security Questionnaire (available on Knowledge Bank) to highlight any weakness in the local systems.
The school has recently been contacted by Norfolk County Council and have advised that the school will receive a 3 day audit of their IT systems/ system security measures. This information has been passed on to the school's IT support provider, JC Commtech, and the school awaits further action.
- DPE recommend that all staff complete DPE's online training 'Staying Safe Online' and 'Password Security' as soon as possible as this will help mitigate risks by raising staff awareness of cyber security.
- Phishing Simulations – these simulations will be available shortly and will allow the school to check in a safe manner, school staff's awareness of phishing and cyber security threats.

Priorities from the consultation on 4.11.21 are detailed below:

Review of Compliance documents - At the meeting the Data Protection Policy and Privacy Notice were discussed. The school uses the Cluster's Data Protection Policy. However, a Privacy Notice is not shown currently on the school's website and Ali will investigate with Karen Hurst at Robert Kett Primary, to confirm whether there is a standard Cluster Privacy Notice that can be used.

If there is not a Cluster Privacy Notice, the school can download a model Privacy Notice from the Best Practice Library on the DPE website.

The latest Privacy Notices can be located under the Transparency section of the Best Practice Library, where you can access Model Notices and also Child Friendly Privacy Notices:

DPE Website / Best Practice including how to make staff changes (add or delete staff)

New look to the Dashboard – All records relating to Tickets / SARS (now known as Data Rights Log) / Breaches / FOIs have been archived to the end of Summer term 2021. Your previous records are still retained in Knowledge Bank and easily accessible by clicking on the relevant area displayed on the dashboard. In this way you can still check back on historical data.

To set up new staff and delete leavers on the DPE website – Go to the DPE dashboard>users>add staff, either manually or bulk import. Kalina at DPE (client support) is here to help you and can be contacted for support at: kalina.voyvodova@dataprotection.education.

The Children's Code - A new code of practice which came into force on the 2 September 2021, otherwise known as 'An Age Appropriate Design Code' has been introduced to ensure the respect of children's rights and freedoms as well as the safeguarding of children's personal data. It will affect education technology providers, apps, games and website providers as well as social media platforms such as Facebook, Whatsapp, TikTok and Instagram. More information can be found under the News section on Knowledge Bank, where a link to the ICO's full statement on the new code of practice can be found.

[The Children's Code \(dataprotection.education\)](https://dataprotection.education)

This new code of practice also links to the ICO's drive to ensure that data controllers have child friendly privacy notices in place. As detailed above, DPE have a number of child friendly privacy notices available on Knowledge Bank, which can be easily adapted for your school and uploaded to the school's website.

Review of Training - Training can be monitored by accessing the main dashboard>reports>select report>single course. The school can select the title of the training to identify which staff have started / successfully completed the relevant course.

DPE recommend that all staff complete the Staying Safe Online NCSC and Password Security. The school management team should have completed Breach training.

GDPR Data Protection: 101 should be completed by all staff, and included in the case of new staff as part of their induction.

The ICO recommends that all staff refresh their GDPR training on a 2 yearly basis, and there is a 20 minute refresher course available on Knowledge Bank.

Electronic Audit Template ‘Making the Rounds’ – There is now an audit template available on Knowledge Bank. This template can be accessed on a tablet or iPad and will enable schools to complete and record their own GDPR audit walks. This was demonstrated at the time of the meeting and is accessible under My Activities/Making the rounds>add a log.

Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school was provided during discussions on the 10.6.21, when the online meeting was not possible due to technical difficulties.

Step 2- at the time of the meeting on the 24.6.21 a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data.

Step 3 – with the support of LM, at the time of the meeting arranged for 7.12.21, the school will continue to tailor the remaining Finance RoPs.

RoP progress to date at the meeting on the 24.06.21

The following RoPs were completed:

- FIN09 Reconciling the Monthly Payroll
- FIN05 Payroll Processes (managing overtime / mileage / supply / casual claims forms)

Core data lists were also demonstrated and adapted to include key staff involved in the Payroll Processes

RoP - Next Steps

A further meeting has been arranged for: **Tuesday 7 December at 10.30am** and the focus will be on completing remaining Finance RoPs.
