

School: Edmund De Moundeford

Date: 09/11/2021

Report: Autumn Term Agenda

DPE: Linda Mortimer

School member: Kirsty Blight, School Secretary

Consultation details

- Review of compliance documents including the Data Protection Policy and Privacy Notice and progress with Checklists (Lindsey Smith will provide support with progressing Checklists)
- Discussion re Cyber Security
- DPE website and how to access archived reports / and making staffing changes – adding or deleting
- Information regarding The Children's Code
- Review of training and running reports
- Electronic internal audit (making the rounds)
- Record of processing (RoP) update and next steps
- Confirm future appointment

Priorities from meeting on 9.11.2021

Review of Compliance documents & Checklists - The Data Protection Policy and Privacy Notice were discussed. The school uses the standard DPE model policies with the Data Protection Policy as V1.5 (latest version is V1.9) and the DPE model Privacy Notice, but does not include a list of third parties with whom the school shares their data. (LM will provide Kirsty with a standard list of third parties and Kirsty will be highlight to confirm those companies the school uses and also add details of other third parties that the school may use, which do not appear on the list).

The latest Privacy Notices can be located under the Transparency section of the Best Practice Library, where you can access Model Notices and also Child Friendly Privacy Notices.

Kirsty discussed the possibility of teachers sharing the Child Friendly Privacy Notice with their students and also having a copy of this Notice placed in their classroom.

Cyber Security - Information security was discussed at the time of the previous meeting, as a result of increasing cyber-attacks in a number of Norfolk schools. There was a 142% increase in cyber incidents in schools in July 2021 and the ICO recognise that the educator sector is at increasing risk of such attacks.

- Discussed at the time, DPE recommend that schools request their ICT Technician to complete the latest Cyber Security Questionnaire (available on Knowledge Bank) to highlight any weakness in the local systems.

- DPE recommend that all staff complete DPE's online training 'Staying Safe Online' and 'Password Security' as soon as possible as this will help mitigate risks by raising staff awareness of cyber security.
- Phishing Simulations – these simulations will be available shortly and will allow the school to check in a safe manner, school staff's awareness of phishing and cyber security threats.

DPE Website / Best Practice including how to make staff changes (add or delete staff)

New look to the Dashboard – All records relating to Tickets / SARS (now known as Data Rights Log) / Breaches / FOIs have been archived up to and including Summer term 2021. Your previous records are still retained in Knowledge Bank and are easily accessible by clicking on the relevant area displayed on the dashboard. In this way you can still check back on historical data.

To set up new staff and delete leavers on the DPE website – Go to the DPE dashboard>users>add staff, either manually or bulk import. Kalina at DPE (client support) is here to help you and can be contacted for support at: kalina.voyvodova@dataprotection.education.

The Children's Code - A new code of practice which came into force on the 2 September 2021, otherwise known as 'An Age Appropriate Design Code' has been introduced to ensure the respect of children's rights and freedoms as well as the safeguarding of children's personal data. It will affect education technology providers, apps, games and website providers as well as social media platforms such as Facebook, Whatsapp, TikTok and Instagram. More information can be found under the News section on Knowledge Bank, where a link to the ICO's full statement on the new code of practice can be found.

[The Children's Code \(dataprotection.education\)](https://dataprotection.education)

This new code of practice also links to the ICO's drive to ensure that data controllers have child friendly privacy notices in place. As detailed above, DPE have a number of child friendly privacy notices available on Knowledge Bank, which can be easily adapted for your school and uploaded to the school's website.

Review of Training - Training can be monitored by accessing the main dashboard>reports>select report>single course. The school can select the title of the training to identify which staff have started / successfully completed the relevant course.

DPE recommend that all staff complete the Staying Safe Online NCSC and Password Security and reminder that the school management team should have completed Breach training.

GDPR Data Protection: 101 should be completed by all staff, and included in the case of new staff as part of their induction.

The ICO recommends that all staff refresh their GDPR training on a 2 yearly basis, and there is a 20 minute refresher course available on Knowledge Bank.

Electronic Audit Template ‘Making the Rounds’ – There is now an audit template available on Knowledge Bank. This template can be accessed on a tablet or iPad and will enable schools to complete and record their own GDPR audit walks. This was demonstrated at the time of the meeting and is accessible under My Activities/Making the rounds>add a log.

Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school’s individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school has been provided.

Step 2- at the time of the meeting on the 19.5.21 a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data.

Step 3 – with the support of LM, at the time of the meeting arranged for 19.1.22, the school will continue to tailor the remaining Finance RoPs.

RoP progress to date at the meeting on the 19.5.21

The following RoPs were completed:

- FIN05 Payroll Processes (managing overtime / mileage / supply / casual claims forms)
- FIN07 Audit
- FIN13 New Starter
- FIN14 Budget Setting

RoP - Next Steps

A further meeting has been arranged for: Wednesday 19 January at 9.30am and the focus will be on completing remaining Finance RoPs and prioritising HR RoPs for completion, using a risk based approach.
