Cyber Security

There were a number of cyber-attacks experienced by Norfolk Schools in summer 2021, with a 142% increase in the month of July alone. The ICO have also recognised that the Education Sector is now at the greatest risk of such attacks and as a result DPE recommend the following actions:

Schools ask their IT Technician provider to complete the Cyber Essentials questionnaire

Staff Training - DPE recommend that key staff complete the Staying Safe Online training, available on Knowledge Bank as well as Password Security.

Phishing Simulations – DPE have designed a number of phishing simulations which will be available shortly on Knowledge Bank. These will help schools check their staff's awareness and resilience at recognizing anything that may be detrimental to the school's information / data security – such as accessing emails that lead to ransomware-attacks and cyber-attacks.

Third Party Suppliers – this relates to third party organisations with whom the school shares personal data. Emma will complete the spreadsheet provided by DPE highlighting which third parties the school uses and adding details of third parties, which do not appear on the spreadsheet.
