

School: Hemsby Primary School **Date:** 04/11/2021

Report: Remote consultation

DPE: Stuart Lee **School member:** Sian Harmer

Consultation details

1. DPE website/best practice including: staffing changes and updating on the DPE website
2. Compliance (documents) and checklists
3. Review of training and information security
4. Electronic internal audit (making the rounds)
5. Record of processing (RoP) update and next steps
6. Next steps

Priorities from the consultation are detailed below:

1. DPE website/best practice including staffing changes

Actions:

- Set up new staff on the DPE website and delete leavers: DPE dashboard>users>add staff, either manually or bulk import. Kalina at DPE (client support) is here to help you if needed and can be contacted for support at: kalina.voyvodova@dataprotection.education.

2. Compliance checklist and documents

The compliance best practice area/checklist (<https://dataprotection.education/index.php/best-practice-library/best-practice/commitment-to-compliance>) can be used to manage progress, print off reports for Trustees/Governors and support consultants during visits/remote consultations. **Demonstrated and updated for the school during the consultation**

Actions:

- Update the **Privacy Policy** to the latest DPE version - **attached with academy information removed**.
- Adopt the latest **DPE Privacy Notices**. There are now separate Privacy Notices for: Workforce, General and Students and there is now a child friendly notice. In addition, update the documentation on the school website (available from the compliance best practice area) - **attached with academy information removed**.
- Please check you are happy that you now have all of the initial compliance documents i.e. **SAR procedure and data breach procedure**. Do all staff understand your organisation's data breach procedure?
- BCR - check to identify if data risk has been added to the BCR.

3. Review of training and information security

Actions:

- Review additional training modules to be completed by staff.
- As there have been some security concerns within the sector consider staff completing the NCSC online training.
- Develop a process for adding new staff to the DPE website and for new staff to complete GDPR training as part of the induction process.

4. Electronic internal audit (making the rounds)

Demonstrated the online walk during the consultation. The school has the option to complete their own end of day walk and report findings back to staff (raising awareness).

5. Record of Processing (RoP) - and risk assessments

A brief RoP demonstration was completed during the remote consultation. Discussed how an RoP can be used for identifying risks with new processing.

Identified that the school is in the process of moving to a new website provider who is also their IT provider. Risks to data were discussed with mitigations.

Actions: SL to complete an RoP to identify additional risks. The following was identified for Sian to follow up with: Secure disposal of any personal data from the legacy system, including any email correspondence. Sian to check how the old website content was migrated to the new platform to ensure there are no data risks with the migration.

6. Next steps

- **Work away from school policy - if not already it is good practice to have one.** School to ascertain which staff work from home, what data they access and how data is handled, which will support risk management for working out of school (policy available from the compliance best practice area).
- **Publication scheme:** Check to identify if the school has a publication scheme and FOI policy. **The updated guidance can be obtained from:**
<https://dataprotection.education/news-top/news/83-best-practice-updates/182-model-publication-scheme-amendments-improvements-and-updates>

Updated publication schemes can be obtained from:
