

School: Scarning VC Primary School

Date: 11/11/2021

Report: Record of Processing - Online Meeting

DPE: Linda Mortimer

School member: Caroline Denton

Consultation details

- Review of progress relating to the actions highlighted at previous meeting on 12.10.21
- Reminder of the school's requirement to comply with Article 30 of the GDPR
- How the personal information is mapped using DPE's RoP tool and aids business continuity
- Example of a generic RoP for HR management
- Demonstration of the master lists, including roles, IT hardware and software

Actions highlighted at meeting on 12.10.21

Data Protection Policy and Privacy Notice – The school will review their Data a Protection Policy and Privacy Notice and consider updating to the latest versions available in the Best Practice resource area on Knowledge Bank.

The updated documents include information about Coronavirus record keeping as well as the NHS Track and Trace system.

School will also consider adopting a Child Friendly Privacy Notice, to comply with the ICO's latest guidance and also in consideration of The Children's Code, which came in to force on the 2.9.21.

DPE have Child Friendly Privacy Notices available from the Best Practice area under the Transparency section.

School Response – this advice has been passed to the Headteacher for his consideration.

Training & Cyber Security – in light of recent cyber threats in the education sector, DPE recommend that all relevant staff complete the 'Staying Safe Online' course available on Knowledge Bank.

DPE also recommend that schools request their ICT Technician to complete the Cyber Essentials Security Questionnaire. The Cyber Essential Questionnaire can be found on:

<https://dataprotection.education/best-practice-library/documents/information-technology-security>

School Response – this advice has been passed to the Headteacher for his consideration. However after further dialogue, Caroline will discuss the importance of awareness when opening emails and the risk to cyber security with specific members of the admin team. Caroline may consider completing the Staying Safe Online course along with other team members, as these are front line staff and at more risk from unintentionally initiating a possible cyber-attack on the school.

Priorities from the consultation on 11.11.21 are detailed below:

To demonstrate the RoP tool to show how schools can demonstrate their compliance with Article 30 of the GDPR. This will include detailing technical measures that are in place as well as the robust processes and procedures that are routinely practiced in the school.

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school has already taken place.

Step 2 - a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data. LM worked with the school providing support to start mapping HR RoPs at the time of this meeting.

Step 3 – online workshops and group sessions to support schools with further individual sessions as needed.

Note: a number of reporting functions i.e. risk reports will shortly be available.

RoP - Progress to date

At the time of this meeting, the following RoPs were reviewed, amended and tailored to reflect the actual practice at the school:

HR10	Managing the Recruitment Process
HR02	Shortlisting Process
HR05	Single Central Record (LM worked with Vicky to tailor and complete this record)
HR04	Creating the Personnel File
