

School: Reedham Primary **Date:** 09/11/2021

Report: Remote consultation

DPE: Stuart Lee **School member:** Chris Edwards and Kirstin Saunders

Consultation details

1. DPE website/best practice including: staffing changes and updating on the DPE website
2. Compliance (documents) and checklists
3. Review of training and information security
4. Electronic internal audit (making the rounds)
5. Record of processing (RoP) update and next steps

The school is in the process of adding the updated GDPR compliance policy documents to the new school website (detailed in the previous report). The consultation included Kirstin Saunders who will now support Chris with GDPR compliance actions. Third party due diligence checks and information security/risks were also discussed. As the previous report actions are still being worked through, further compliance considerations including publication schemes will be included in the next consultation. Main consultation details are below:

1. DPE website/best practice including staffing changes

Actions:

- Set up new staff on the DPE website: DPE dashboard>users>add staff, either manually or bulk import.
- Consider updating the staff induction process to include setting up new staff on the DPE website and including GDPR training as part of the process.

2. Compliance documents

Actions:

Consider a GDPR section for the school website and add the following documents:

- GDPR policy
- Privacy notices
- SAR procedure
- Data breach procedure
- Consent withdrawal form
- Third party/supplier list

Please check that you are happy that you now have all of the initial compliance documents:

SAR procedure and data breach procedure. Do all staff understand your organisation's data breach procedure?

Work away from school policy - if not already it is good practice to have one and to ascertain which staff work from home, what data they access and how data is handled, which will support risk management for working out of school (policy available from the compliance best practice area).

3. Review of training and information security

Actions:

- Review additional training modules to be completed by staff.
- Due to information security concerns in the sector, consider staff completing the DPE NCSC stay safe online training.

4. Electronic internal audit (making the rounds)

Demonstrated the online walk during the consultation. The school has the option to complete their own end of day walk and report findings back to staff (raising awareness)

5. Record of Processing (RoP) - and DPE methodology

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school - **completed 9/11/21.**

Step 2- a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data.

Step 3 – online workshops and group sessions to support schools with further individual sessions as needed.
