

School: Pulham C of E Primary

Date: 17/11/2021

Report: Autumn Agenda & Record of Processing

DPE: Linda Mortimer

School member: Karen Rix, Business Manager

Consultation details

- DPE Website – archived reports, managing staff changes, reporting functions
- Introduction of the Children's Code
- Consideration of new business processes to be introduced in next financial year
- Compliance Checklists
- Cyber Security & new Best Practice Area for Information Security
- Compliance update – review of policies
- Review of training completed
- Making the rounds – demonstration of electronic audit template
- Review of the school's progress to date with populating the RoP and reporting function

DPE website – managing staff changes / reporting functions / news updates

The Dashboard - There is a new look to the dashboard and previous details relating to Tickets / Data Rights Log (formerly known as SARs)/ Data Breaches / FOIs have been archived, but can still be accessed in the same way.

Managing staff changes - To set up new staff on the DPE website and delete leavers go to DPE dashboard>users>add staff, either manually or bulk import. Kalina at DPE (client support) is here to help you and can be contacted for support at: kalina.voyvodova@dataprotection.education

Introduction of The Children's Code

As from the 2 September 2021 this new code of practice has come in to force. This code stipulates how companies supplying educational technology, social media platforms such as Facebook, Tik Tok, Whatsapp as well as online games and apps are expected to operate. The code specifies greater security measures to be in place with the safeguarding of children's personal data and the need for 'age appropriate' communication/media tools for children.

To read the ICO's full statement on the code of practice go to the News section on Knowledge Bank, which provides a link to the ICO's statement. Go to News/Latest Newsletters/Welcome Back: News Content & Updates from DPE <https://dataprotection.education/news-top/news/147-public-updates/201-the-children-s-code>

Consideration of New Business Processes

If the school is thinking about introducing any new processes ie parent online payment system in time for the new financial year or changing the school's management information system, it is worth thinking now of the due diligence checks that should be taken to protect the school and how it shares personal information.

A supplier checklist can be found on Knowledge Bank and it is best practice to complete such questions prior to signing up to a new provider. Help can be obtained from DPE if required.

The DPE website will soon be including a Best Practice area to support schools in the process of changing third party providers detailing the necessary checks that should be considered and prompting thoughts about related risks.

Compliance Checklists - The school will work with Lindsey Smith who will provide support in completing some of the outstanding Compliance Checklists. Once updated, the dashboard produced can be used to manage progress and demonstrate compliance with the GDPR. This is also a useful source of data for Governors. Compliance Checklists can be accessed on the following link:

<https://dataprotection.education/index.php/best-practice-library/best-practice/commitment-to-compliance>)

Cyber Security

There were a number of cyber-attacks experienced by Norfolk Schools in Summer 2021, with a 142% increase in the month of July alone. The ICO have also recognised that the Education Sector is now at the greatest risk of such attacks and as a result DPE recommend the following actions:

Schools ask their IT Technician provider to complete the Cyber Essentials questionnaire

<https://dataprotection.education/best-practice-library/documents/information-technology-security>

Staff Training - DPE recommend that key staff complete the Staying Safe Online training, available on Knowledge Bank as well as Password Security.

Phishing Simulations – DPE have designed a number of phishing simulations which will be available shortly on Knowledge Bank. These will help schools check their staff's awareness and resilience at recognising anything that may be detrimental to the school's information / data security – such as accessing emails that lead to ransomware-attacks and cyber-attacks.

DPE's new Best Practice area - dedicated to information security. In this area schools can find many useful documents and resources. [Information Security \(dataprotection.education\)](https://dataprotection.education)

Compliance Update – review of policies

LM queried whether the school's Data Protection Policy is due for review as it is showing as V1.2 and the most up to date is V1.9. When the school updates its DP Policy, LM also suggests that the Privacy Notice is reviewed

at the same time to keep the consistency of these documents. Go to Best Practice Library/Transparency/Model Notices.

Please note that child friendly Privacy Notices are also available on Knowledge Bank, as recommended by the ICO and also links with the new Children's Code. Go to Best Practice Library/Transparency/Child Friendly Privacy Notices.

Review of Training

LM demonstrated how to use the dashboard to identify training that has been completed and also note training that is outstanding. Go to Dashboard/Reports/Select Report/Single Course/Select name of relevant training course.

The ICO recommends that the GDPR 101 is included in the new staff induction process and that a refresher is completed every 2 years. A GDPR 20-minute refresher is available on Knowledge Bank. Most staff completed their GDPR 101 course in early 2020 therefore their GDPR Refresher is due in early Spring Term 2022.

Making the Rounds (Electronic Audit Template)

This electronic template has been created to enable the school to record their own findings from a GDPR Audit walk and was demonstrated at the time of the meeting. This template can be used on an iPad or tablet and provides the school with the option of making its own record of audit findings. Go to My Activities/Making the Rounds/Add Log.

Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school was provided at the online meeting on the 6.5.21. A further meeting took place on 14.6.21 when the Finance RoPs were completed to reflect the actual practice at Pulham Primary.

Step 2- a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data.

Step 3 – at the time of the meeting on the 18.11.21, the HR RoPs were reviewed and prioritised for completion in accordance with a risk related approach.

RoP - Progress to date:

At the time of the meeting held on the 20.10.21, the following RoPs were reviewed, amended and tailored to reflect the actual practice at the school:

HR01	Pre-Employment Checks
HR06	New Starter Procedure / Induction
HR09	DBS Checks for Staff, Contractors and other Third-Party Professionals
HR21	Setting up the Employment Contract

At the time of the meeting on the 18.11.21 the following RoPs were completed:

HR04	Creating the Personnel File
HR05	Managing the Single Central Record
HR07	Staff Leavers Procedure
HR10	Managing the Recruitment Process

Following the review of RoP relating to shortlisting of candidates it was decided that this was covered adequately in the RoP for Managing the Recruitment Process, and was therefore deleted from the school's RoP record on KB. If in the future it is decided that the school wishes to have a dedicated RoP for shortlisting this can be copied from the Generic School.
