

School: Spixworth Federation Date: 11/11/2021

Report: Remote consultation

DPE: Stuart Lee School member: Denise Betts

Consultation details

1. DPE website/best practice including: staffing changes and training
2. Compliance (documents)
3. Supplier due diligence
4. Q and As

Priorities from the consultation are detailed below:

1. DPE website/best practice including staffing changes and training

Actions:

- Set up new staff on the DPE website and delete leavers: DPE dashboard>users>add staff, either manually or bulk import. Kalina at DPE (client support) is here to help you and can be contacted for support at: kalina.voyvodova@dataprotection.education.
- New staff to complete GDPR training and follow up with staff yet to complete training.
- As there have been some security concerns within the sector consider all staff completing the DPE NCSC stay safe online training.

2. Compliance documents

Discussed the federations privacy documents and compared with DPEs latest documents.

Actions:

- Review **Privacy Policy** with the latest DPE version, adding the COVID related section - email sent 12/11.
- Review **Privacy Notices**. There are now separate Privacy Notices for: Workforce, General and Students which should include COVID related information. Denise to add the COVID related section to each notice - email sent 12/11.
- Third party lists - within each notice - who you share information with - add the following sentence (or similar) and add the third party list with your GDPR documents to the school website: For a full list of third parties/suppliers the school shares information with, please refer to the third party list on the school website: **ADD LINK**.
- **Work away from school policy - if not already it is good practice to have a policy** (policy available from the compliance best practice area).
- Please check you are happy that you now have all of the initial compliance documents i.e. **SAR procedure and data breach procedure**. Do all staff understand your organisation's data breach procedure?

There is also the option of having a data protection section for the federation website where the following documents would be displayed:

- GDPR policy**
- Privacy notices**
- SAR procedure**
- Data breach procedure**
- Third party list**
- Consent guidance/withdrawal**

3. Supplier due diligence

The federation is investigating using School Cloud for its parents evening app. SL mapped across an RoP for the school to use. Brief demonstration of the RoP and benefits for risk management was completed.

Actions:

SL to send Denise the supplier due diligence check for Denise to send to the supplier.

Denise to liaise with the supplier for data sharing agreement

5. Q and As

Q1: Tapestry: The school collects consent that states that photos MAY be shared with groups of students in learning journals. Is this adequate? SL explained that consent should be granular and specific.

A1: SL suggested, to avoid any ambiguity that the wording is changed in future when sending consent forms for this section to: photos are shared.

Q2: Sharing data with the NHS: DPE responded to support ticket: 3521 stating that students where consent was denied for the flu vaccine, names and classes should not be shared with the NHS.

A2:SL follow up with AD (DPE). SL asked Denise to check what NHS documentation went out to parents informing them of collection of information where consent was denied. **Outcome: Information can be shared.**

Q3: Recent Tapestry data breach where the wrong child names were tagged. School has followed up with an apology to the parent. Other than logging the breach is any further action required?

A3: SL - This was human error. Other than raising awareness to staff to avoid this happening again the federation had acted appropriately.
