

School: Wreningham Primary

Date: 24/11/2021

Report: Autumn Agenda

DPE: Linda Mortimer

School member: Nuria Sharp, Business Manager & Sarah Dyer, Admin Officer

Consultation details

- DPE Website – archived reports, managing staff changes, reporting functions including training records
- Introduction of the Children's Code an "Age Appropriate Design Code"
- Consideration of new business processes to be introduced in next financial year
- Compliance Checklists
- Cyber Security & DPE's new Best Practice area
- Compliance update – review of policies
- Review of training completed to date / details of free GDPR training on 4 and 5 January 2022
- Making the rounds – demonstration of electronic audit template
- Review of the school's progress to date with populating the Record of Processing

DPE website – managing staff changes / reporting functions / news updates

The Dashboard - There is a new look to the dashboard and previous details relating to Tickets / Data Rights Log (formerly known as SARs)/ Data Breaches / FOIs have been archived, but can still be accessed in the same way.

Managing staff changes - To set up new staff on the DPE website and delete leavers go to DPE dashboard>users>add staff, either manually or bulk import. Kalina at DPE (client support) is here to help you and can be contacted for support at: kalina.voyvodova@dataprotection.education

Introduction of The Children's Code

As from the 2 September 2021 this new code of practice has come in to force. This code stipulates how companies supplying educational technology, social media platforms such as Facebook, Tik Tok, Whatsapp as well as online games and apps are expected to operate. The code specifies greater security measures to be in place with the safeguarding of children's personal data and the need for 'age appropriate' communication/media tools for children.

To read the ICO's full statement on the code of practice go to the News section on Knowledge Bank, which provides a link to the ICO's statement. Go to News/Latest Newsletters/Welcome Back: News Content & Updates from DPE <https://dataprotection.education/news-top/news/147-public-updates/201-the-children-s-code>

Consideration of New Business Processes

The school advised that they are considering introducing Pupil Asset to enable online payments for parents.

If any new processes involving the processing of personal data is to be introduced, it is essential to consider due diligence checks that should be taken to protect the school and how it shares personal information.

A supplier checklist can be found on Knowledge Bank and it is best practice to complete such questions prior to signing up to a new provider.

The DPE website now includes a Best Practice area to support schools in the process of changing/introducing new third party providers detailing the necessary checks that should be considered and prompting considerations regarding related risks.

Compliance Checklists - At the time of the meeting LM demonstrated these checklists. Once updated, the dashboard can be used to manage progress and demonstrate compliance with the GDPR. This is also a useful source of data for Governors. Compliance Checklists can be accessed on the following link:
(<https://dataprotection.education/index.php/best-practice-library/best-practice/commitment-to-compliance>)

Cyber Security

There were a number of cyber-attacks experienced by Norfolk Schools in Summer 2021, with a 142% increase in the month of July alone. The ICO have also recognised that the Education Sector is now at the greatest risk of such attacks and as a result DPE recommend the following actions:

Schools ask their IT Technician provider to complete the Cyber Essentials questionnaire
<https://dataprotection.education/best-practice-library/documents/information-technology-security>

Staff Training - DPE recommend that key staff complete the Staying Safe Online training, available on Knowledge Bank as well as Password Security.

Phishing Simulations – DPE have designed a number of phishing simulations which will be available shortly on Knowledge Bank. These will help schools check their staff's awareness and resilience at recognising anything that may be detrimental to the school's information / data security – such as accessing emails that lead to ransomware-attacks and cyber-attacks.

DPE's new Best Practice area - dedicated to information security. In this area schools can find many useful documents and resources. [Information Security \(dataprotection.education\)](https://dataprotection.education/information-security)

Compliance Update – review of policies

LM confirmed that according to the Data Protection Policy on the school's website, that is due for review in Spring 2022, however this will be provided by the Cluster. If the school updates its DP Policy at this time, LM suggests that the Privacy Notice is reviewed at the same time to keep the consistency of these documents. To find the latest versions of these documents go to: Best Practice Library/Transparency/Model Notices.

Please note that DPE have created child friendly Privacy Notices and these are also available on Knowledge Bank. Child friendly Privacy Notices are recommended by the ICO and also links with the new Children's Code. To consider which child friendly Privacy is best for Wreningham, go to: Best Practice Library/Transparency/Child Friendly Privacy Notices.

Review of Training

LM demonstrated how to use the dashboard to identify training that has been completed and also note training that is outstanding. Go to: Dashboard/Reports/Select Report/Single Course/Select name of relevant training course.

Records show that only a few staff have completed the GDPR 101 course. The ICO recommends that the GDPR 101 is included in the new staff induction process and that a refresher is completed every 2 years. A GDPR 20-minute refresher is available on Knowledge Bank.

If the school has used external training or carried out group training, records of the training completed can be uploaded to Knowledge Bank. Kalina (DPE Customer Support) can provide assistance with this task.

On the 4 and 5 January 2022, DPE are running a number of free GDPR courses / Inset training webinars – information is available on the link from the main dashboard.

Making the Rounds (Electronic Audit Template)

This electronic template has been created to enable the school to record their own findings from a GDPR Audit walk and was demonstrated at the time of the meeting. This template can be used on an iPad or tablet and provides the school with the option of making its own record of audit findings. Go to: My Activities/Making the Rounds/Add Log.

Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial management of the school was provided at the meeting on the 29.9.21.

Step 2 - a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data. This was covered at the time of the meeting on the 18.11.21

Step 3 – reports were demonstrated to show how to access retention records and also risk reports.

RoP Next Steps

The school can continue to tailor the generic RoPs that have been populated in their area on Knowledge Bank. If further advice is required, please email for support.

A copy of an RoP for introducing an online payment system was copied into the school's area on Knowledge Bank. This can now be used to recognise risks and mitigations associated with this business process.
