

School: Wicklewood Primary & Nursery

Date: 07/12/2021

Report: Review of Autumn Term & RoP Completion

DPE: Linda Mortimer

School member: Alison Trigg

Consultation details

- Review of recommendations from previous meeting - Cyber Security
- Information Security – new area on Knowledge Bank
- Review of compliance documents including the Data Protection Policy and Privacy Notice
- Consideration of new business processes and due diligence
- Training availability – DPE free online GDPR training on 4 and 5 January 2022
- Reporting functions in the RoP
- Record of processing (RoP) – completing the remaining Finance RoPs
- Confirm future appointment

Priorities from the consultation on 4.11.21 are detailed below:

Cyber Security

Earlier in Autumn term the school was contacted by Norfolk County Council and were advised that the school will receive a 3-day audit of their IT systems/ system and security measures.

The school has been requested to provide certain documentation including their Finance Policy.

If the school is unsure about the validity of this request, they can forward the list of documents requested for review by DPE, who will provide advice and guidance.

Information Security – there is a new Best Practice area dedicated to information security. In this area schools can find many useful documents and resources. [Information Security \(dataprotection.education\)](https://dataprotection.education)

Review of Compliance documents - The school uses the Cluster's Data Protection Policy. However, a Privacy Notice is not shown currently on the school's website and Ali will investigate with Karen Hurst at Robert Kett Primary, to confirm whether there is a standard Cluster Privacy Notice that can be used.

If there is not a Cluster Privacy Notice, the school can download a model Privacy Notice from the Best Practice Library on the DPE website.

The latest Privacy Notices can be located under the Transparency section of the Best Practice Library, where you can access Model Notices and also Child Friendly Privacy Notices.

Consideration of new business processes

If any new processes involving the processing of personal data is to be introduced, it is essential to consider due diligence checks that should be taken to protect the school and how it shares personal information.

New Electronic Signing-In System - The school advises that they will be introducing a new electronic signing in system which will be used by visitors and staff. The school's IT provider will oversee the installation of this system, however LM advises that due diligence should still be carried out.

LM will populate an RoP relating to electronic signing in systems into Wicklewood's RoP area on Knowledge Bank. Reviewing this generic RoP will help prompt questions relating to possible risks with such a system. This will then allow for risk assessment and help form mitigating actions that need to be introduced to reduce the risk of data sharing.

A supplier checklist can be found on Knowledge Bank and it is best practice to complete such questions prior to signing up to any new provider.

The DPE website now includes a Best Practice area to support schools in the process of changing/introducing new third party providers detailing the necessary checks that should be considered and prompting considerations regarding related risks

Training – DPE are providing free online GDPR training sessions available on the 4 and 5 January 2022.

Reporting functions in the RoP – the Retention Schedule was demonstrated to the school as well as a Risk Report which can be generated for each RoP that has been completed. Ali expressed that this type of report would be a good source of information for Governors.

Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial/management of the school was provided during discussions on the 10.6.21, when the online meeting was not possible due to technical difficulties.

Step 2- at the time of the meeting on the 24.6.21 a more in depth look at the RoP with key process owners and how completing the master lists will ensure the school reflects the technical measures and procedures it has in place to safeguard personal data.

Step 3 – with the support of LM, at the time of the meeting on the 7.12.21, RoPs - FIN14 Budget Setting and FIN18 Managing School Trip Finance were completed. The school will continue to tailor the remaining Finance RoPs.

RoP - Next Steps

A further meeting has been arranged for: **Tuesday 22 February at 1.30pm** and the focus will be the Spring Ter agenda and completing remaining Finance RoPs.
