

Organisation: Woodside Outside Learning Centre

Report: Autumn Agenda

Date: 14/12/2021

DPE: Linda Mortimer

Organisation member: Victoria Barker

Consultation details

- DPE support – continuation of online meetings & introduction of Lindsey Smith, new consultant
- DPE Website – archived reports, managing staff changes, access to training records
- Introduction of the Children's Code an "Age Appropriate Design Code"
- Consideration of new business processes to be introduced
- Compliance Checklists
- Information Security & DPE's new Best Practice area / share with Mike Sherwood
- Compliance update – review of policies
- Review of training completed to date / details of free GDPR training on 4 and 5 January 2022
- Making the rounds – demonstration of electronic audit template
- Review of the Record of Processing to date

DPE Support

In light of recent government recommendations required to control the spread of Covid, DPE will continue with online meetings until further guidance is issued.

Lindsey Smith has recently joined the DPE team and will be supporting our clients with their GDPR compliance. Lindsey has considerable experience in managing GDPR compliance and was the GDPR lead for a large Trust in Lincolnshire.

DPE website – managing staff changes / reporting functions / news updates

The Dashboard - There is a new look to the dashboard and previous details relating to Tickets / Data Rights Log (formerly known as SARs)/ Data Breaches / FOIs have been archived, but can still be accessed in the same way.

Managing staff changes - To set up new staff on the DPE website and delete leavers go to DPE dashboard>users>add staff, either manually or bulk import. Kalina at DPE (client support) is here to help you and can be contacted for support at: kalina.voyvodova@dataprotection.education

Action: As the Director of Operations is currently on maternity leave, Victoria will check with Mike Sherwood to confirm whether or not she should be assigned Administrator rights on Knowledge Bank. If the organization requires help with this, Kalina can be contacted for support.

Introduction of The Children's Code

As from the 2 September 2021 this new code of practice has come in to force. This code stipulates how companies supplying educational technology, social media platforms such as Facebook, Tik Tok, Whatsapp as well as online games and apps are expected to operate. The code specifies greater security measures to be in place with the safeguarding of children's personal data and the need for 'age appropriate' communication/media tools for children.

To read the ICO's full statement on the code of practice go to the News section on Knowledge Bank, which provides a link to the ICO's statement. Go to News/Latest Newsletters/Welcome Back: News Content & Updates from DPE <https://dataprotection.education/news-top/news/147-public-updates/201-the-children-s-code>

Consideration of New Business Processes

If any new processes involving the processing of personal data is to be introduced, it is essential to consider due diligence checks that should be taken to protect the organisation and how it shares personal information.

A supplier checklist can be found on Knowledge Bank and it is best practice to complete such questions prior to signing up to a new provider.

The DPE website now includes a Best Practice area to support schools in the process of changing/introducing new third party providers detailing the necessary checks that should be considered and prompting considerations regarding related risks. Go to the Best Practice Library / Supplier Due Diligence.

Compliance Checklists - LM demonstrated the compliance checklists at the time of the meeting. Lindsey Smith will be in contact in Spring Term 2022 to provide support with the completion of these checklists. Once the compliance checklists have been updated, the dashboard can be used to manage progress and demonstrate compliance with the GDPR. This is also a useful source of data for Governors. Compliance Checklists can be accessed on the following link:
(<https://dataprotection.education/index.php/best-practice-library/best-practice/commitment-to-compliance>)

Information Security

There were a number of cyber-attacks experienced in our schools during the Summer Term 2021, with a 142% increase in the month of July alone. The ICO recognise that the Education Sector is now at the greatest risk of such attacks.

To help protect your organisation, DPE recommend that you take a multi-disciplinary approach, including raising staff awareness and improving resilience, ensuring that your systems are robust and kept up to date.

We recommend that the organisation reviews DPE's new Best Practice area - dedicated to information security. In this area organisations can find many useful documents and resources. [Information Security \(dataprotection.education\)](https://dataprotection.education)

Action: Victoria will refer this to Mike Sherwood who is in charge of the organisation's IT systems.

Staff Training - DPE recommend that key staff complete the **Staying Safe Online** training, available on Knowledge Bank. To ensure staff retain heightened awareness of cyber risks, DPE also recommend that these staff complete **Password Security**, also available on Knowledge Bank.

Action: Victoria to refer the matter of staff training; Staying Safe Online and Password Security to Rebecca.

Phishing Simulations – DPE have designed a number of phishing simulations which will be available shortly on Knowledge Bank. These will help schools check their staff's awareness and resilience at recognising anything that may be detrimental to the school's information / data security – such as accessing emails that lead to ransomware-attacks and cyber-attacks.

Compliance Update – review of policies

LM confirmed that Woodside's Data Protection Policy on the organisation's website was last reviewed in June 21, but does not include any information / guidance about Covid 19. The school has published Privacy Notices for Employee, Parents and Pupils, but do not include any information / guidance about Covid 19 and data sharing that may be required with the NHS, Public Health England. Woodside could include the relevant information regarding Covid 19, which can be found in the latest version of these model DPE policies, available on Knowledge Bank's: Best Practice / Resources / Policies, Procedures and forms.

Action: LM will provide Victoria with a word document with relevant wording relating to Covid-19 (taken from DPE's model documents). These can be copied and pasted into the organisation's Data Protection Policy and Privacy Notices as required.

To further enhance the information available to all stakeholders, the school may wish to consider adopting a Child Friendly Privacy Notice. This is something that the ICO is encouraging and also links with the new Children's Code, reinforcing the use of child friendly communication. DPE have created a number of child friendly Privacy Notices in various formats. To consider which child friendly Privacy is best for the organisation, go to: Best Practice Library/Transparency/Child Friendly Privacy Notices where templates can be downloaded and adapted for the school.

Review of Training

LM demonstrated how to use the dashboard to identify training that has been completed and also note training that is outstanding. Go to: Dashboard/Reports/Select Report/Single Course/Select name of relevant training course.

The ICO recommends that the GDPR 101 is included in the new staff induction process and that a refresher is completed every 2 years. A GDPR 20-minute refresher is available on Knowledge Bank.

It was noted at the time of the meeting that the training records did not show accurate times for completing the GDPR 101 course or whether the employee was shown as 'passed' or 'completed' in a consistent manner.

Action: LM will refer this to Kalina for further review.

Action: Victoria will refer the matter of GDPR Refresher training to Rebecca, as the majority of staff completed their GDPR 101 training in Spring 2020 meaning that they will require GDPR Refresher training in Spring Term 2022.

On the 4 and 5 January 2022, DPE are running a number of free GDPR courses / Inset training webinars – information is available on the link from the main dashboard.

Making the Rounds (Electronic Audit Template)

This electronic template has been created to enable the school to record their own findings from a GDPR Audit walk and was demonstrated at the time of the meeting. This template can be used on an iPad or tablet and provides the school with the option of making its own record of audit findings. Go to: My Activities/Making the Rounds/Add Log.

Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your organisation's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to financial management of the school was provided earlier this year, and after this meeting the school completed some Finance RoPs.

Step 2- a more in depth look at the RoP with key process owners and how completing the master lists will ensure the organisation reflects the technical measures and procedures it has in place to safeguard personal data. This will be covered at the time of the meeting on the 10 February 2022 at 1.30pm.
