

School: Poringland Primary School **Date:** 14/12/2021

Report: Remote consultation

DPE: Stuart Lee **School member:** Pete Dean, Matt Walker, Jo Francis

Consultation details

As previously, the school continues to take a proactive approach to GDPR. Matt, the current GDPR lead, will be leaving the school in January 2022 to take a headship position (Preston) with Hannah (new deputy) taking over GDPR responsibilities with Pete. From discussions regarding the current data protection landscape and school situation the following areas were given priority:

1. DPE website/best practice including: staffing changes and updating on the DPE website
2. Compliance (documents) and checklists
3. Review of training, running reports and information security
4. Third party/supplier due diligence

The following areas were discussed regarding next steps:

5. Electronic internal audit (making the rounds)
6. Record of processing (RoP) update and next steps
7. Q and As
8. Future appointments

1. DPE website/best practice, including staffing changes

Actions:

- Matt to update staff on the DPE website and delete leavers: DPE dashboard>users>add staff, either manually or bulk import.
- Pete to consider having as part of staff induction GDPR training for new staff.

2. Compliance documents

Actions:

- SL to send the school the updated privacy notices, third party list to check against and policy - **actioned.**
- **Work away from school policy** - if not already it is good practice to have one - school to review.
- **Publication scheme:** School to check to identify if the school publication scheme has been updated.

Although the documents below are not all statutory to have on your website, for transparency and ease of managing these documents, it is good practice to have a data protection/GDPR section on your website and consider including the following documents:

- GDPR policy
- Privacy notice(s)

-
- SAR and data breach procedure
 - FOI and publication scheme
 - Supplier/third party list

3. Review of training, running reports and information security.

The school recently had a LA audit pertaining to information security. One of the outcomes was the school updating their business continuity plan. The DPE phishing simulation and risks in the sector were discussed during the consultation.

Actions:

- Review additional training modules to be completed by staff and as there have been some security concerns within the sector, consider staff completing the DPE NCSC stay safe online training.

4. Third party/supplier due diligence.

The school is now in the process of using provision mapping (EDUKEY) for monitoring SEND students. A discussion took place around due diligence of third party suppliers and sending the DPE due diligence form to the supplier:

<https://dataprotection.education/best-practice-library/documents/procedures/135-supplier-due-diligence-form>

Note:

- The school can start the review of current contracts with suppliers.
- Make use of the DPE supplier due diligence best practice area and contact DPE as required for support: dpo@dataprotection.education

5. Electronic internal audit (making the rounds)

There is now an electronic walk (making the rounds) that can be accessed and completed via the DPE website: <https://dataprotection.education/courses-heading/making-the-rounds-log> The walk can be completed by staff and consultants when they visit.

Actions:

- SL arranged to complete an afterschool walk (COVID situation allowing) for the Spring term to support the process (22/02/22).
- The school can continue to raise staff awareness internally i.e. monthly focus and use of staff meetings.

6. Record of Processing (RoP) - and DPE methodology

Matt has already tailored many of the DPE generic RoPs for the school. SL suggested to wait until the Spring term to move this forward as there were a number of developments taking place. SL will follow up with the school and include the RoP in future meetings. The school can still use the RoP for assessing risks, especially when introducing new software/applications.

7. Q and As

NSIX email download: SL queried whether the school still receives a download with everyone's UN and PWs. School to confirm if this still takes place and SL to follow up.

8. Future appointments

After school walk arranged for: 22 February 15.15.
