

School: Woodside Outdoor Learning Centre

Date: 10/02/2022

Report: Remote consultation – Spring Term Agenda

DPE: Linda Mortimer

Staff member: Victoria Barker

Consultation details

1. Review of actions (Autumn Term Agenda)
2. Review of GDPR status
3. Supplier due diligence
4. Information security and e-learning training
5. Data retention
6. DPE events and webinars
7. Record of processing (RoP) update

1. Review of actions identified at time of Autumn Term Agenda

Assigning Administrator rights – Victoria is going to check with Mike Sherwood whether she should be assigned full administrator right for Knowledge Bank as the Director of Operations is currently on maternity leave and Victoria is assuming general responsibility for GDPR in her absence.

Data Protection Policy and Privacy Notices - Woodside's current versions of their Data Protection Policy and Privacy Notice are dated June 21. However, they do not include guidance on Covid. LM has forwarded a document containing this information which could be included in these documents.

LM also suggests that Woodside may wish to consider introducing a Child Friendly Privacy Notice which would be in line with the latest ICO guidance and also the newly introduced 'Children's Code – age appropriate design'.

Information Security – in light of the increased number of cyber attacks in schools across the country, LM recommends that key staff are aware of the information and guidance available on Knowledge Bank. Victoria will refer this to Mike Sherwood, for his information. See section 4 below for links to documents.

Staff Training – Victoria will liaise with Rebecca, who is in charge of staff training, and pass on the DPE recommendation that key staff complete the DPE online course 'Staying Safe Online'.

Victoria will also raise with Rebecca that all staff should complete a GDPR refresher course every 2 years, as advised by the ICO.

2. Review of GDPR status, compliance documents, website and internal documentation

By now you should have all of your main updated compliance documents. Although the documents below are not all statutory to have on your website, for transparency and ease of managing these documents, it is good practice to have a GDPR section on your website and consider including the following documents:

Website documents:

- GDPR policy
- Privacy notice(s)
- SAR and data breach procedure
- FOI Policy

Other useful documents to review and check that you have are:

- Work away from school policy
- Review of consent documentation. Consent guidance and consent withdrawal can also be added to the GDPR section of the school website

For data retention (section 5 below) there is a records management best practice area and documentation for records management and Information classification. If your data protection policy refers to these documents then you should also have these documents in place: <https://dataprotection.education/best-practice-library/best-practice/records-management>

3. Supplier due diligence

The controller is responsible for assessing that any third party processors (suppliers etc) are competent to process personal data in line with the UK GDPR's requirements. This assessment should take into account the nature of the processing and the risks to the data subjects. This is because Article 28(1) says a controller must only use a processor that can provide "sufficient guarantees" (in particular in terms of its expert knowledge, resources and reliability) to implement appropriate technical and organisational measures to ensure the processing complies with the UK GDPR and protects the rights of individuals.

Things to consider:

- Privacy notice/third party/supplier list - is this up to date, do you know all the organisations/suppliers you share information with?
- Due diligence form - this can be sent to new suppliers
- Make sure that current and future contracts include data protection
- Risks - what you should be thinking of when purchasing and using new products and suppliers
- If using GDPRiS for maintaining suppliers, make sure that this is updated and accurate

DPEs best practice area and the due diligence form for suppliers is located here:

<https://dataprotection.education/index.php/best-practice-library/best-practice/due-diligence-best-practice-area>

4. Information security (phishing simulation) and e-learning training

DPE have a number of resources for information security: <https://dataprotection.education/best-practice-library/documents/information-technology-security>

If not already, staff should complete the **Stay Safe online NCSC training**. This is not only beneficial for the organisation but also for staff when accessing personal information online i.e. personal banking: <https://dataprotection.education/courses-heading/stay-safe-online-ncsc>

There is also an information classification best practice area: <https://dataprotection.education/index.php/best-practice-library/best-practice/information-classification>

And DPE will be releasing a phishing simulation shortly.

In addition, you can check out the National Cyber Security Centre website: ncsc.gov.uk which has useful resources and tips for schools regarding cyber security:

- **School resources:** <https://www.ncsc.gov.uk/section/education-skills/schools>
- **Governor Qs for schools:** <https://www.ncsc.gov.uk/information/school-governor-questions>

Check out the DPE news articles on the Education sector now being at the highest risk of cyber attacks- <https://dataprotection.education/news/166-information-security/203-the-education-sector-now-at-highest-risk-of-cyber-attacks>

<https://dataprotection.education/news/166-information-security/220-assessing-the-state-of-your-data-security>

5. Data retention

Organisations can set deadlines, document and justify timeframes they have set for retaining data. There are **two key factors**: the **purpose** for processing the data, and any **legal or regulatory requirements** for **retaining it**. One of your purposes will need to apply for you to continue to store the data. Data should not be held for longer than is needed. You shouldn't just keep data just in case you may need it in the future.

Different data systems to consider when reviewing data retention:

- Emails
- MIS
- Website
- Network/CLOUD

Tools to support you:

- There are a number of tools to support you with data retention: [IRMS](#) tool kit
- DPE's [record management](#) best practice area and records management policy

-
- [DfE](#) Annual review of school records and safe data destruction checklist
 - [ICO](#)
 - DPEs [Record of Processing \(RoP\)](#)
 - Your third party list within your privacy notice
 - Laws and regulations (for example, financial regulations and handbooks and limitations act:
<https://www.legislation.gov.uk/ukpga/1980/58> /legislation:
<https://www.legislation.gov.uk/uksi/2021/833/contents/made>)
 - [Microsoft retention tools](#)
 - [Google retention tools](#)
 - [MIS retention tools](#)
 - Network scanning and retention tools - speak to your IT department

6. DPE events and workshops

Check out the latest webinars and workshops from the My Activities section of the DPE website.

7. Record of Processing (RoP) - and DPE methodology

The following RoPs were completed at the time of the meeting:

FIN15	Payroll process for contract changes
FIN16	Payroll process for sickness/absence
FIN06	Payroll process for leavers
FIN12	Payroll process for overtime
FIN27	Managing Kiddivouchers

A further meeting has been booked for the 17.3.22 at 1.30 to prioritise HR RoPs for completion.
