

**School: SWANTON ABBOTT PRIMARY**

**Date: 02/03/2022**

**Report: Remote consultation – Record of Processing**

**DPE: Linda Mortimer**

**School member: Janice Allen, School Secretary**

### **Consultation details**

1. Review of progress - actions identified as outstanding:  
Compliance documents; website and internal documentation  
Information security and e-learning training  
Supplier due diligence  
Data retention
2. Record of processing (RoP) update
3. Future appointments – Lindsey Smith or Stuart Lee will be in contact

**Priorities and discussions from the consultation are detailed below:**

#### **1. Review of previous report(s) and outstanding actions - Meeting held on 18.11.21 and 13.1.22 with following items highlighted:**

- **Training** - the school will ensure that DPE's general GDPR training is included in staff induction.
- **Pupil Asset Online Payment System** – the school is currently using this for parents to make online payments. However to enable this facility the school was required to enable a Stripe account, with Stripe acting as an API (Application Programming Interface)

The school has had to set up an account with Stripe to facilitate Pupil Asset's online payment system. This was discussed at time of meeting on 13.1.22 and LM forwarded the school the standard due diligence questionnaire for them to send to the company. JA will send out the relevant forms.

- Progress update re exiting a contract for shredding services and hope to sign up for a replacement service in summer term 2022. Following contact with NP Law the shredding contractor has been in touch with the school and an exit plan has been agreed.

**Best practice area:** <https://dataprotection.education/index.php/best-practice-library/best-practice/due-diligence-best-practice-area>

- **Compliance documents** – there are several standard policies and documents, ie the Data Breach Procedure, the SAR Procedure as well as Working away from School Policy, which could be published on the school's website. JA confirmed that she will refer this to the Headteacher for her consideration.

- **Information Security & training** - to help mitigate the risk of the school being exposed to cyber risks, raising staff awareness is critical. DPE strongly recommends staff complete the Staying Safe Online course and Password Security.  
JA confirmed that she will highlight this issue to the Headteacher for consideration of including relevant training at the next Inset.
- Also the school to consider resources / information available on the DPE website about information security:

DPE resources: <https://dataprotection.education/best-practice-library/documents/information-technology-security>

Training: <https://dataprotection.education/courses-heading/stay-safe-online-ncsc>

- **Data retention** – At the time of the last meeting, the importance of having regular routines in place for reviewing data retention was discussed. The GDPR states that Data Controllers should not hold data for longer than needed. The systems which should be considered will include; emails, the school's MIS, website as well as data stored in the school's network and also in the Cloud. **The previous report included links to a number of tools to help with this housekeeping exercise.**

## 2. Record of Processing (RoP) - and DPE methodology

At the time of the meeting the following HR RoPs were completed:

|      |                                    |
|------|------------------------------------|
| HR21 | Employment Contract                |
| HE04 | Creating the Personnel File        |
| HR05 | Managing the Single Central Record |
| HR01 | Pre-employment Checks              |
| HR06 | New Starter                        |

JA will work on the 5 remaining HR RoPs.
