

Organisation: Clarion Academy Trust

Date: 23/02/2022

Report: Record of Processing - Online Meeting

DPE: Linda Mortimer

Trust member: Rachael Clarke, CFO

Consultation details

- How personal information is mapped using DPE's RoP tool
- Example of generic Finance RoPs
- Reporting functions of the RoP

An explanation was provided regarding a Data Controller's responsibilities under Article 30 of the GDPR at the time of the last meeting.

Clarion are about to change their Payroll provider to Edupay and are currently at the point of transfer and on track to make the change from the 1 April 2022.

In changing this system the trust will be able to mitigate the risks when changes are made to HR contracts resulting in amendments to Orovia, the trust's budget software. This is due to a dynamic link between the two electronic systems and all changes made are automatically uploaded to other relevant systems.

There are likely to be changes in how certain areas are managed ie staff will be able to upload their own overtime claims to the central payroll system, which will then be sent to the approver for authorisation. This should reduce manual input and also eliminate some of the inherent risks in handling such documents.

Once the Finance Team has received their training in these new systems, the RoPs for managing overtime claims, changes to contracts, maternity pay, paternity pay as well as managing sick pay, can be completed to reflect the new practice at Clarion.

Record of Processing (RoP) - methodology and where we are at

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to Financial Management, in place at trust level – this was completed at the time of the meeting on 23.02.22.

The following RoPs were completed at the time of the meeting on the 23.2.22:

- FIN01A Reconciliation of the Monthly Payroll
- FIN13A New Starter Information

At the meeting held on 3.3.22 the following RoPs were completed to reflect the practice at Clarion:

- FIN24AM Setting up a BACS Payment
- FIN02A Budget Setting and Reporting

Step 2- a more in depth look at the RoP with key process owners and how completing the master lists will ensure the Trust reflects the technical measures and procedures it has in place to safeguard personal data.

Step 3 – online workshops and group sessions will be available, to support trusts with further individual sessions as needed.
