

Organisation: The Wensum Trust

Date: 17/03/2022

Report: Record of Processing - Online Meeting

DPE: Linda Mortimer

Trust members: Neil Aylott, Finance Manager

Consultation details

- Update on progress with meetings at local level
- Review of process for Budget Setting
- Review of process for managing Sixth Form Bursary
- Review of process for producing the Teacher's Pensions EOYC

Mapping out local finance responsibilities

Meetings have taken place with many of the finance staff who have responsibility at a local level for managing defined processes such as processing of overtime / mileage claims / absence recording and reporting.

Safeguarding personal information involved in delivering the Hardship Fund

LM has drafted an RoP for managing the Hardship Fund and has uploaded this to the Wensum Trust's RoP Manager.

Reporting Functions of the RoP

At the time of the previous meeting Neil was shown how to produce a Retention Schedule. Individual risk reports can also be produced and these may be used with Trustees to demonstrate the Trust's approach to mitigating GDPR risks relating to personal data.

These reports can be generated by navigating to the 'select document' (box at the side of each RoP), and then selecting 'process risk report'. This information can be copied into a Word document.

Record of Processing (RoP) - methodology and where we are at

We will continue to work with you and demonstrate how the RoP can be adapted to reflect your school's individual practice.

Step 1 - a general introduction to the RoP tool with a brief overview of the generic process relating to HR management in the Trust – this was completed at the time of the meeting on 14.12.21.

Step 2 - At the time of the meeting on 17.3.22 all remaining finance RoPs were completed. There are many more completed RoPs available in the Generic School. These can be easily copied in to the Trust's RoP Manager and with some minor tailoring, will reflect the actual practices at the Wensum Trust.
