Bcc: Tammy Buchanan <tammy.buchanan@dataprotection.education>

Hello Loran,

I hope you had a good weekend, thank you for your email and policies. I have had a chat with Arrienne about them as well and have some information below for you.

Data Protection Policy

Regarding your question about supply teachers - is this specifically a digital access question? Your data protection policy does have this section which should cover what you were asking if we are understanding your question correctly? I know you said that these supply staff would not have access to data on online systems, but there would be information around the classroom and they would need to know specific special needs or medical information so they would have access to personal data and some of that would be special category. Here is the information in the document which looks applicable:

13.3. These measures shall include as appropriate:

- Measures and data access controls to ensure that the Personal Data can only be accessed by authorised personnel for the purposes agreed in the record of processing activity and outlined in the organisation privacy notice;

However, please be advised there was no information in the documents you sent through about the record of processing mentioned in the above statement, nor is that completed on the Knowledgebank, so perhaps that information is elsewhere. This appendix had also been removed from the Privacy Notice, which means there is very little processor information:

Appendix A: List of Processing

For further information regarding any of these processes, please contact the school or the data protection officer using the contact details at the top of this privacy notice.

[This table can be substituted with the General Privacy Notice List-Only report from the Generated Documents tool to pull in data from your record of processing]

Description of process	Data Categories	Location of Data	How long it's kept	Who is the information is shared with	Lawful basis for processing
Pre-admissions	Contact details, Educational records, Identifier, Pastoral, Date of Birth, Gender, Religion	Cloud Storage, Email, Local computer, Document, Local network	1 Year(s) From when data is collected	Org xxx, local authority	task performed in the public interest

11.2 should contain details of the consent form

SAR Procedure

In the data protection lead and DPO role they should be named.

Privacy Notice

Seems to be a mixture of the Pupil & Staff Privacy Notice with several parts missing, including sharing information about pupil data. We would normally recommend separate ones and have attached our template policies for your information. Just to make you aware there were lots of unchanged sections in this document, ones that are not applicable to your school and should be removed.

Online Safety Policy

We wouldn't normally comment on an Online Safety Policy as it is not directly related to data protection. I did read it though and found nothing obvious but does not specifically mention data protection other than as a linked policy, but couldn't see any links back to it in the actual document.

I hope that helps, and look forward to meeting you,

Many thanks,

Tammy Buchanan
