Hi Mark,

As mentioned, here is how you assign a to do for a course:

Go to 'My Courses'

Choose the pencil icon on the bottom right of the screen and then go through all the details. You will see that it gives you the option to assign to all users or choose users from the drop down menu. This is a good way to give staff a deadline for doing a course.

At the moment when a member of staff completes the course the todo is not currently auto completed I believe the member of staff will need to do that, but it is something that James is working on as part of current development.

Many thanks,

Tammy Buchanan
