Hi Anila,

Thank you for your time today. It was really lovely to meet you. Please find attached a short report covering our discussion and some extra links and information that might be useful.

I have also attached the template privacy notices which also include the template table for the third party supplier list that we discussed.

Regarding the Windows download folder, I suspect it will be harder to prevent staff from downloading to it than it will be to put a policy in place for deletion, given how much work is done online. Here are some thoughts around enabling the deletion of the contents:

- speak to your IT provider to see if they can write a script to run every so many days (14/30 days) to delete the folder on shutdown
- raise awareness amongst the staff to encourage them to check the downloads folder before they log off and delete the contents, especially if it is a shared computer
- advise members of staff how to set up an auto deletion of the folder contents which can be done through the settings -> Storage and turning on Storage Sense. This will delete files in the Recycle Bin and Downloads folder automatically after 1/14/30/60 days. Please note this is not supported below Windows 10. Windows 7 devices are no longer supported and should not be in use or on the school network. - - Alternatively speak to your IT provider and see if they can turn Storage Sense on using Windows Group Policy (it depends how your devices are administered and set up). If InTune is being used this could also be done this way.

<https://support.microsoft.com/en-us/windows/manage-drive-space-with-storage-sense-654f6ada-7bfc-45e5-966b-e24aded96ad5>

I look forward to seeing you on the 1st December.

Many thanks,

Tammy Buchanan
