Hi both,

Thanks for your time on Friday, it was good to meet you both in person. Just to advise that I have updated the Making the Rounds in the Knowledgebank with the details we discussed as we went round. Unfortunately, as I thought, my photos had not been saved, however I have updated everything else. To view this information please go to My Activities in the top menu and select Making the Rounds. I have put some feedback into the DPO Feedback area. There is then an area for you to update with any actions that you have taken.

As agreed, I discussed a few of the things with James:

- Supply teachers and Contractors - would advise you to see the actual DBS of an individual. If they are frequent visitors consider adding them to your Single Central Register.
- Child special category personal data on staffroom, PPA room wall and other areas - would advise removing and informing staff through training and electronic systems.

Some observations relating to IT:

- Interactive Whiteboards - would advise cleaning regularly otherwise the cameras in the bezels will not work properly and will cause calibration issues. Advise not putting blu tack on or near the board, on the surface of the screen it can cause damage where the mouse will continually go to that area of the screen. Would advise turning them off to save power when not in use (ICT Room one was on). Some have settings to do this.
- Computers - advise setting an auto shutdown nightly via Windows group policy to save power. Remind staff to turn off board and computer at the end of the day.
- Wi-Fi code - would recommend having a visitor one to protect network resources (IT should be able to set this up).

I appreciate that you might want to share some of this information outside of the Knowledgebank and unfortunately it doesn't yet produce a report. I have gone through and put the main information into a pdf for you which I have attached.

I have attached the model CCTV policy for your information. Further CCTV information and advice can be found in the Knowledgebank under the Best Practice -> Resources menu item.

As there is a lot of information in this and you may wish to discuss further, I'm putting a link below which will allow you to check my availability and book in a half an hour meeting with me. Otherwise please feel free to book one for the new year where we can discuss retention and information security in more detail:

<https://go.oncehub.com/DPEIntroductoryOnlineMeeting>

If I have forgotten anything please let me know and please do not hesitate to contact me if you need any further information

Many thanks,

Tammy Buchanan
