To: Paul Panter <paul.panter@biltt.org>, Hannah Langsman <Hannah.langsman@biltt.org>, Sally Bradshaw <Sally.Bradshaw@biltt.org>, Tanya Dvirko <Tanya.dvirko@biltt.org>, Kirstie Webb <Kirstie.webb@biltt.org>, Catherine Friend <Catherine.friend@biltt.org>

Cc: Paula Burgess <paula.burgess@biltt.org>

Bcc: Tammy Buchanan <tammy.buchanan@dataprotection.education>

Hi all,

Thanks for your time today - it was really lovely to meet you all. Please find below a summary of our meeting and some actions and plans going forward:

Attendees:

Hannah Langsman

Paul Panter

Catherine Friend

Kirstie Webb

Knowledgebank Users: We discussed the importance of having all staff and governors/trustees on the Knowledgebank and keeping them up to date.

Training: training is done regularly and assigned through the Knowledgebank, but is also done in conjunction with someone else within the Trust. Advised that the NCSC training should be completed for RPA insurance purposes. Paul confirmed that he has registered the Trust with the Police CyberAlarm and has set it up. Here is some further information in relation to employees and governor training:

<https://www.ncsc.gov.uk/information/cyber-security-training-schools> and there is further NCSC training on the DPE Knowledgebank.

Governors/Trustees: Advised aligning a governor or trustee with data protection for support, but also because they should be aware of the above, the Cyber Security Strategy and Business Continuity Plan and aligning it to the Trust's strategy.

Home School Diaries: We discussed the use of home school diaries for communicating with parents and the risks of data loss involved given it is taken on transport. Advised an online tool such as a parent comms app, or Class Dojo or Seesaw which would be safer, but understand the current situation.

Data Breaches: We discussed the use of an internal SharePoint form for logging data breaches by staff which are then put onto the Knowledgebank by the GDPR Champions - it is important that all breaches, however seemingly insignificant, go onto the Knowledgebank.

Supplier Lists : We discussed the Record of Processing as being something that would be helpful for the Trust but would need to be worked on by the Central Team to map out the Trust's processes. We also discussed a Third Party Supplier list for each school and the data that is shared with those suppliers. You will all work on getting those lists together, although I appreciate this is a lot of work. Paul advised there are some lists already done and will use these as a starting point. This will also help toward the Record of Processing task and in helping standardise processes, third parties and software across the Trust.

Making the Rounds: Suggested the champions doing Making the Rounds at each school and can see that Catherine has already done one - I can go through and put in some comments and help. We can organise a Making the Rounds for The Grange and Grey's in the new year and will send some dates through shortly as you asked for some support.

Other items:

Next GDPR Champions Meeting: 24th February @ 2pm - meeting invite to follow

Meeting with Paul to discuss Information Security and Retention: 14th December@ 2pm - meeting to follow

Paul this link might be useful for you if you are not already a member: <https://anme.co.uk/>

Questions from Hannah:

Data Retention for pupil files and Data Retention for pupil EHCP files: - this information and the below can be found in the IRMS toolkit document in the Best Practice area on the Knowledgebank (the EHCP one has a caveat to it, so best you read for yourselves and determine your situation) for this part go to page 50

<https://dataprotection.education/best-practice-library/documents/guides/18-irms-schools-toolkit>

Can paper files be deleted if they have been scanned electronically? - this information is also in the above document and can be found at page 27 as there are details about proving that the document is genuine and keeping records once scanned and uploaded.

You mentioned purging files out of the cupboard at this point in time and would also recommend reading about that in the above document as it does offer some guidelines.

I have also attached an Infographic which I think might be helpful for all of you.

I look forward to seeing you all at the next meeting.

Many thanks,

Tammy Buchanan
