Hi Sharon,

That's OK, I understand! Unfortunately no there isn't the same type of infographic, but there are these:

The best place for information is the Best Practice area and there is a whole section on data breaches:

<https://dataprotection.education/best-practice-library/best-practice/data-breaches>

Data Breach learning nugget:

<https://dataprotection.education/courses-heading/data-breaches-2/data-breaches-learning-nugget?cid=7>

Data Breach poster:

<https://dataprotection.education/best-practice-library/documents/drip-feeds/49-recognise-a-personal-data-breach/file>

I've also attached a slide from a presentation that gives real examples of the types of data breaches that DPE sees every day that might be helpful.

I hope that helps,

Many thanks,
Tammy

Hi Tammy

Lol, we sat down and had a 'brain dumping session' 😊

No hurry with the information, we just wanted to send the queries while they were fresh in our head!

Yes the attachment is great – I will send out to all the staff and put a copy in the staff room and near the photocopiers 😊 - Is there a similar for 'What defines a data breach, and what you need to report and when?'

Thanks

Sharon

P.s) I have a vague memory of an email regarding info on your website .. possibly regarding the walk around? – I need to pick that up too, but may have to delay that one 😊

Thanks

Sharon

Hi Sharon,

Thanks for your email. That's a lot of information and questions so it may take me a while to get together for you as I am back to back meetings for the next couple of weeks.

1) the IRMS website - you don't need to access this. All the information that you need is in an IRMS document on the Knowledgebank. It can be found here:

<https://dataprotection.education/best-practice-library/documents/guides/18-irms-schools-toolkit>

2) Really it should just be the list of third parties that you share any pupil or staff data with - yes CoolMilk is one of the ones that you might want to list because it does also include the dob. GDPRiS is another service that a lot of our customers use and we do not have the information on who does use it. If it is a service that you subscribe to then you would have a login for it - it is a chargeable service.

3) Working away from school policy - I will have a look at

4) Password security information - you really just need to make sure that passwords are not shared or readily available, are complex and use multi factor authentication where possible. This is something that your IT provider can help with.

5)GDPR policy - will take a look

6) Data protection policy - SARS - will take a look

7) Data Protection policy - Data breaches - will take a look

8)FOI - will take a look

9) Data Retention - will take a look

10) Staff Awareness - I have attached an infographic which might be helpful - but please let me know if this isn't the kind of thing you were looking for. Other useful infographics can be found on the Knowledgebank under Resources.

I will book some time in my diary to go through the policies that you sent - do you have any deadlines for these that you need to meet? I can see that we have another meeting booked in for the 5th December - it is unlikely that I will have had a chance to review them all before then, but we can catch up and discuss at the meeting.

I hope that helps.

Many thanks,

Tammy

Hi Tammy,

Can we pick your brain regarding a few things please – apologies if you have already mentioned this in a previous email or sent paperwork regarding these, but there's a lot of paperwork to go through, so I may have missed it, and as you are more in the DP zone, you will probably know where to look, whereas we would need to crawl through everything.

- 1) We are going through our policies and just wanted to know about the access to the 'irms' website - I don't seem to have log in details for this – is this something that you provide for us or should we have it ourselves?
- 2) You say we need a supplier/3rd party list on our website – how detailed does this list need to be? Is there a template? The appendix at the end of the Data Privacy Policy's is a bit vague for my little brain lol... am I correct in saying we need a list of 'an other's' that we would share children/staff data with ... you don't want a list of everyone we pay (you don't care that our toilet washers are from Travis and Perkins lol), but we should have a list of companies like coolmilk that have names and dob of children What info should we have from companies like coolmilk regarding their GDPR? - should this be on our website? .. you mention GDPRiS – we don't have log in details for this website – is this a free site or a chargeable one (I think I know the answer to this!) – As we are a small school we have to manage cost, so trying to understand what is required/nice to have and can manage another way.
- 3) We don't have a 'Working away from school policy' but we do have a flexible working request/policy' (attached) – Is this the same thing?
- 4) What information do you require regarding 'information security/passwords'? – Is this a process flow of who we give passwords to? Type of passwords(length/requirements)? How often systems need passwords change?
- 5) Our GDPR policy (attached) has a 'consent' section (on pg5) – is this enough for 'consent guidance / withdrawal or does it need to be separate on the webpage? – Does this policy cover all the GDPR issues?
- 6) Can you confirm that our Data Protection policy (attached) includes everything we need for ICO's SAR (Subject Access request) requirements, so we don't need a separate policy
- 7) Can you confirm that our Data Protection policy (attached) includes everything we need for Data breaches, so we don't need a separate policy.
- 8) Attached is our FOI ... is this compliant?
- 9) Data Retention – we have the attached Policy/schedule (records management – retention schedule.xls attached) – Does this comply with the current requirements? ... we don't have this on our website – do we need to?
- 10) Staff awareness – do you have a list/poster of 'data breaches' that staff need to log with you? ... obviously the 'big one's' we are aware of, but I know you mentioned smaller things like 'photocopying left on copier with children's information' is low level, but should be recorded – I know a complete list is impossible, but a starting point would be great and we can then expand ... if in poster form, we could put them around the staff room/near copiers and generally 'remind' everyone about data sensitivity.

I think that's it for the moment ☺

Thanks

Sharon

Thanks in advance

Sharon

Hi both,

Thanks for your time this morning. Please find attached a short report covering some of the things we discussed and some additional links. I have attached some of the template policies we discussed as well, but these can also be found in the Best Practice Area and Resources in the Knowledgebank.

There is a section in the iRMS toolkit about Governing body documents but does not specifically cover minutes so am trying to check for you. I will take time to go through the Making the Rounds that you did in February and provide some feedback for that later in the week.

I have sent through the next meeting invite, but if you need anything in the meantime, please do not hesitate to contact me.

Many thanks,

Tammy Buchanan
