To: Claire Mcgrath <ClaireMcgrath@middlestreet.brighton-hove.sch.uk>, tammybowles@middlestreet.brighton-hove.sch.uk

Bcc: Tammy Buchanan <tammy.buchanan@dataprotection.education>

Hi both,

Thank you for your time this morning, it was lovely to see you again. Please find below everything we discussed and links and information etc:

- You confirmed that you had actioned the locking of cupboards, encouraging staff to shut the server room door, reinforcing locking of computers and have put a keypad on the Senco's office, following my Making the Rounds visit in October - I have updated the Making the Rounds log on the Knowledgebank to reflect this.

- We discussed updating staff on the Knowledgebank (removing leavers and adding new staff), further information about how to do that is here:

Reminder to set new staff up on the DPE website and remove leavers: **DPE Dashboard -> Users -> Add staff**, either manually or bulk import. The bulk import option will allow the download of a template file which can be populated and uploaded. It is recommended that staff are advised beforehand that they will receive an email with login details as it may go into junk/spam. Kalina at DPE (client support) is here to help you and can be contacted for support at: <mailto:kalina.voyvodova@dataprotection.education>.

- Once the staff list is up to date we would advise assigning courses to staff. An Introduction to Data Protection and Data Breaches are the main ones. Other courses should be considered for staff that have access to special category data. We also recommend that it is part of the induction process. Details on how to assign courses to staff is here:

<https://dataprotection.education/news-top/news/165-using-the-knowledge-bank/291-assigning-users-to-courses>

- I recommended putting up posters around the school, for example in the staff room, as another form of training. The posters can be found here:

<https://dataprotection.education/best-practice-library/documents/drip-feeds>

- I have also attached an infographic which might be useful and covers practical information around data protection in schools.

- We discussed your new website and some of the data protection policies and procedures that we would recommend, which I have attached. This link gives an example of how a school has set out their data protection page: [Trowse Primary School - GDPR](#)

- Next time we will see how you are getting on with your policies and start to have a look at third party suppliers and data retention. I will shortly send an invite through for that for the 27th February.

Have a lovely Christmas, and I look forward to seeing you then.

Many thanks,

**Tammy Buchanan**
