Hi Alison,

Thank you for your time today and good to see you again. Please find below the topics we discussed and any further information:

- You said that you had added any new staff onto the Knowledgebank. Please find below a link that shows new functionality around assigning courses to staff and then checking if they have completed the course: <https://dataprotection.education/news-top/news/165-using-the-knowledge-bank/291-assigning-users-to-courses>
- We discussed the privacy notices and data protection policy. We would normally advise the following for privacy notices: <https://dataprotection.education/best-practice-library/best-practice/transparency>
- We discussed the recommendations from the NCSC and the recommended training for staff and Governors:
In addition, you can check out the National Cyber Security Centre website: ncsc.gov.uk which has useful resources and tips for schools regarding cyber security:
 - School resources: <https://www.ncsc.gov.uk/section/education-skills/schools>
 - Governor Qs for schools: <https://www.ncsc.gov.uk/information/school-governor-questions>
- We also talked about speaking to your IT provider about whether it is possible to implement Multi Factor Authentication for email for better security.
- You advised that USB's are no longer allowed and that the local authority backs up your data each night.
- We discussed your third party suppliers and about publishing a list. You have the list at the end of your privacy notice but would advise to consider including exactly what data is shared with those third parties, such as pupil full name and year group for example. I have received the list that you sent through, and we will have an update the next time that we speak.
- We had invited one of your Governors but he was unable to attend.

I will shortly send through the invite for our next meeting for April 27th at 11:30am. Have a lovely Christmas and I look forward to seeing you in April.

Many thanks,

Tammy Buchanan
Data Protection Consultant

BSc(Hons) Computer Science
ITIL 4 Service Management, NCFE Principles of Cyber Security
