Cc: Tammy Buchanan <tammy.buchanan@dataprotection.education>

Hi Jill,

Thanks for your time today. It was good to see you again. Please find below the items we discussed and any extra information:

Update - We discussed recent SARS and Breaches reported on the Knowledgebank as there is a trend with the breaches relating to wrong pupil information being emailed to parents. This is something being worked on with processes possibly needing to change. We would recommend parent communication is sent out via any Parent Comms systems for better data protection and to hold the information in the MIS, this is something that Darrick Wood will work towards over time.

FOI - This week there have been a number of FOI requests across all schools so advised that the news area on the Knowledgebank has advice on how to respond to them: <https://dataprotection.education/news-top/news>. There is additional help and support in the Best Practice Area: <https://dataprotection.education/index.php/best-practice-library/best-practice/freedom-of-information>

Training - It might be advisable for admin staff to complete further training on the Knowledgebank. Staff with access to special category and additional data may require extra training such as Data Breaches. You advised that staff training for data protection does take place in large groups and this works for LSA's who don't always have access to a device. Data protection training is also part of the onboarding process. Please see this link for new information about how to assign courses to staff as new functionality in the Knowledgebank: <https://dataprotection.education/news-top/news/165-using-the-knowledge-bank/291-assigning-users-to-courses>

Due Diligence - We discussed due diligence of third-parties and we looked at the supplier list in Darrick Wood's pupil/parent privacy notice. I will transfer this onto the Knowledgebank as part of DPE's due diligence work. I would advise checking that this list is still valid and that the actual data that is shared is also documented. There is a template table at the end of the template privacy notice on the Knowledgebank: <https://dataprotection.education/best-practice-library/best-practice/transparency>. We agreed that you would also send me your workforce privacy notice so that I can go through the supplier list there as it should include such critical systems such as payroll and finance.

Data Retention Policy - We discussed data retention and you will locate the data retention policy to check. This document (go to page 37) shows the retention schedules for documents education: <https://dataprotection.education/best-practice-library/documents/guides/18-irms-schools-toolkit>. I also advised checking email retention for both sent and deleted emails.

Data Protection Policy - This was due for review in November 2022 so advised, please see the latest template here: <https://dataprotection.education/best-practice-library/documents/procedures/8-data-protection-policy>

We agreed to meet again in May and I will send that invite through to you shortly. In the meantime, if you have any further questions please do not hesitate to contact me or email dpo@dataprotection.education.

Many thanks,

Tammy Buchanan
