Hi Jane,

Thank you for your time today. It was really good to meet you. Please find below the details we discussed -

Knowledgebank - we discussed the use of the Knowledgebank and getting staff onto it. I have already sent an email to Kalina and copied you in to arrange a demo for you. Please find attached a template file for adding staff onto the Knowledgebank. Feel free to fill this out and send it back to me and I can add them on for you. If you do choose to do this, I would advise that you email staff first to make them aware that they will get a login invite as it may go into spam. Also to advise that as staff members they do see a different view of the KB (which I'm sure Kalina will show you).

Training - you advised that staff have recently undertaken data protection training through a different training provider. We would advise that all staff do this as a minimum every two years. Staff such as admin, head and senco or anyone with access to additional/special category information we would advise doing the Data Breach training as well as some of the other courses. Once you have added staff onto the Knowledgebank it is very easy to be able to assign courses to them : <https://dataprotection.education/news-top/news/165-using-the-knowledge-bank/291-assigning-users-to-courses>. Data protection training should be part of the onboarding of staff process.

SAR - a SAR was recently received verbally. Advised this should be added onto the Knowledgebank and responded to. Further SAR advice is here: <https://dataprotection.education/best-practice-library/best-practice/subject-access-requests>

Policies - we discussed the policies on the web:

Data Protection Policy: recently updated and reviewed on the website as per the DPE template

Pupil Privacy Notice: recently updated and reviewed on the website as per the DPE template, would recommend re-adding in the third-party table for data shared

Workforce Privacy Notice: recently updated and reviewed on the website as per the DPE template, would recommend re-adding in the third-party table for data shared

FOI Policy: needs review. There is a template policy on the DPE website : <https://dataprotection.education/best-practice-library/best-practice/freedom-of-information>. As mentioned a lot of schools have been receiving FOI's this week, further information about those can be found here: <https://dataprotection.education/news-top/news>

Data Breach Procedure: template is here: <https://dataprotection.education/best-practice-library/documents/procedures/14-data-breach-procedure>

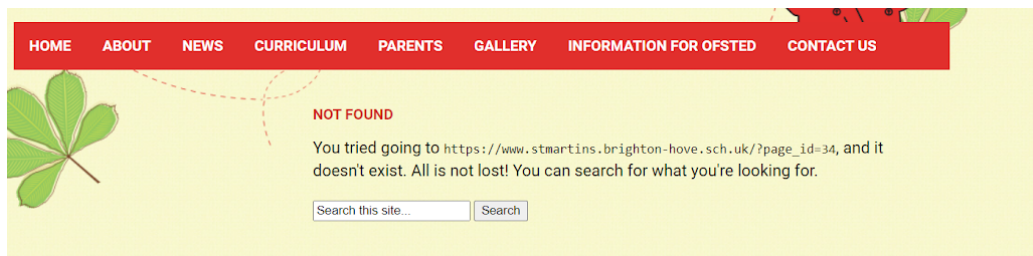

Data Retention Policy: information about data retention is here: <https://dataprotection.education/best-practice-library/best-practice/records-management>

Contractor Compliance: the document on the website is a mixture of a small list of third parties/software and the due diligence form you would normally send to third parties. I would recommend reviewing your third-party list and either listing in the appropriate privacy notices as an appendix as per the template or creating a separate document. Here is an example of what another school has done:

[Trowse Primary School - GDPR](#)

We also discussed Ofsted requirements - the Data Protection Policy is Ofsted required. The others are recommendations as it shows commitment to compliance. This isn't data protection related but I would advise you check what is required from a governor perspective, including a register of business interest, structure, dates of meeting etc. There are also some new additions for 2023 such as how Covid Catchup Funding has been spent.

Always ensure out of date links are removed and that navigation is clear - just for your information your News link is not working:

I will shortly send through a meeting invite for the next meeting in March.

Have a good weekend.

Many thanks,

Tammy Buchanan
