Hi Liz,

Thanks for sending these through. I have added all of the suppliers, however if you have any due diligence of your own then I would recommend uploading them.

Tucasi has many pieces of software, so if you could please advise which modules you use?

Also, Renato Software Limited is the actual name of the company for senso.cloud, just in case you can't find it when you look!

I have added you as the contract owner for all of them. Where I know the software I have also added that for you. I will add the Tucasi ones when you send them through.

I'm not currently sure how we are recording any services used by local authorities so have just added Bracknell Forest Borough Council for now, but again, if you have any due diligence with them then please upload it.

I hope that helps,

Many thanks,
Tammy
