Hi Nicola,

Thanks for your time today. It was good to see you again. Please find below the information discussed at the meeting:

You advised that you had put up some of the DPE posters since our last meeting but had little time to progress data protection much further.

We discussed third-party supplier due diligence and recommended putting a list together of those suppliers where pupil, parent or staff data is shared. At the end of the DPE privacy notices there are some template tables: <https://dataprotection.education/component/seoglossary/1-data-protection-education-definitions/privacy> that might help with this.

DPE is undertaking some due diligence work and so would ask you to send your supplier list through to me when complete. I will add this onto the Knowledgebank for you and copy across from any generic third party suppliers already on the system. This will work towards the record of processing.

We discussed medical records being readily available around the school and talked about a new online system that you were looking into. I advised adding a ticket to the Knowledgebank when you have decided on a provider so that we can help with any due diligence given special category information would be shared. You advised that there would also be a data integrator that would share the data from SIMS so I advised that this should also be included in the due diligence. Further information about due diligence can be found here: <https://dataprotection.education/best-practice-library/best-practice/due-diligence-best-practice-area>

We agreed that it would be helpful for me to come and do a Making the Rounds visit which I will shortly send a meeting request through for (10am on the 24th April). I look forward to seeing you then.

Many thanks,

Tammy Buchanan
