To: Mark Stevenson <MarkStevenson@hertfordinf.brighton-hove.sch.uk>

Bcc: Tammy Buchanan <tammy.buchanan@dataprotection.education>

Hi Mark,

Thank you for your time today. It was good to see you again. Please find below the information we discussed and any follow up details I said I would send:

Data Breach - we discussed the data breach you reported recently and advised assigning the data breach training course to the person involved. I have checked on the Knowledgebank and the breach is closed.

Assigning courses - I advised that there is new functionality around assigning courses to staff which may be useful. The article can be found here: <https://dataprotection.education/news-top/news/165-using-the-knowledge-bank/291-assigning-users-to-courses>

Advised that data protection training should be part of the onboarding process as post covid more staff are joining mid year.

You said that staff have undertaken the NCSC training. Please find below the link to send to your governing board that I mentioned: <https://www.ncsc.gov.uk/information/school-governor-questions>

Policies - you advised that these are checked quarterly. You have removed old photos and are awaiting governor approval for some policies.

Supplier Due Diligence - I explained the work that DPE are currently undertaking with third party suppliers and have advised if you send me your list I will check them against the master list and add some to the Herford Infant and Juniors where there is a generic third party supplier/software on the Knowledgebank. They should be suppliers that the schools share pupil/staff/parent information with and would include: MIS, Parent Comms, Parent Payments, payroll, LA, next school, curriculum apps such as My Maths, Tapestry etc.

CCTV - CCTV is being installed next week in the Junior school. You are already working on a CCTV policy. Advised ensuring it is in a locked area, that a restricted number of staff know how to remove any data and that there is a retention schedule which is automated if possible.

Making the Round - we briefly reviewed the making the rounds which you will look at more closely in the near future to see what can be actioned from the advisories. Just to remind you to look at this with the known risks in your school that we would not be aware of such as who has access to the area outside of school hours.

Next time we will review the above and talk about Information Security/Data Retention/Cyber Security.

I will shortly send you through a meeting request for an online meeting for April 19th @2pm. I look forward to seeing you then.

Many thanks,

Tammy Buchanan
Data Protection Consultant
