Hi Jo,

Thanks for your time today. It was really good to meet you. Please find below details we discussed and some of the information I said I would send through:

Knowledgebank - we discussed using the KB and you have assigned courses to staff, although not all have completed. I advised that adding staff to the KB and assigning the data protection course to them should be part of the onboarding process, given that more staff are starting mid-year.

Posters - good for awareness and are a passive form of training. They can be found here: <https://dataprotection.education/best-practice-library/documents/drip-feeds>

FOI Info: <https://dataprotection.education/index.php/best-practice-library/best-practice/freedom-of-information>

Data Protection Policy - you have said this is due for renewal. The DPE template can be found here: <https://dataprotection.education/best-practice-library/documents/procedures/8-data-protection-policy>

Other procedures/policies - other procedures that you might find helpful for the website:
<https://dataprotection.education/best-practice-library/documents/procedures/15-subject-access-request-procedure>
<https://dataprotection.education/best-practice-library/documents/procedures/14-data-breach-procedure>

Supplier Due Diligence - you have a list of suppliers in your privacy notices which I can add onto the Knowledgebank. You mentioned a new product called Insight that you are looking at - if you require help with the due diligence, then please raise a ticket on the KB and Victoria, our legal director will take a look.

Compliance Manager - I've sent an email to James about why you can't see the Compliance manager report, so will come back to you when I have spoken to him.

I will shortly send you an invite for May 11th at 2pm which will be an in person meeting for us to do a 'Making the rounds' at the school. If you have any queries, then please do not hesitate to contact me.

Many thanks,

Tammy Buchanan
Data Protection Consultant

BSc(Hons) Computer Science
ITIL 4 Service Management, NCFE Principles of Cyber Security
