23 February 2023 at 15:22

Hi Matthew,

Thanks for your time today. It was good to meet you. Please find below the details we discussed and links with information we discussed:

Commitment to compliance - we didn't discuss this, but it is important that you register Data Protection Education as your DPO as it is a requirement under the UK GDPR. Instructions on how to do this are here: <https://dataprotection.education/best-practice-update/110-make-sure-dpe-is-your-registered-dpo-with-the-ico>

Knowledgebank - advised that all staff can be added to the Knowledgebank. I have attached a .csv file for you to populate and send back to me. Just a reminder to email all staff to let them know that they will receive some login credentials for it. We agreed that you will email me details of any staff that could be admins for the Knowledgebank and I will then arrange for them (and you) to have a demo of the system with my colleague Kalina. Once all staff are on the system you or any other admins will be able to assign courses to them - I will send the instructions through on how to do that when we get to that point.

Compliance Manager - I talked about using the Compliance Manager as a way of assigning documents and policies to staff (not necessarily data protection ones) to read and then you are able to run a report to check whether staff have read them or not. Here is a bit more detail about the Compliance Manager: <https://dataprotection.education/best-practice-update/104-compliance-manager-released>
There is a video on how to use the Compliance Manager which can be accessed by going to the Knowledgebank Dashboard and clicking on the video camera icon next to the Compliance Manager title. However, this will also be covered in any demos with Kalina.

Policies -

Although the documents below are not all statutory to have on your website, for transparency and ease of managing these documents, it is good practice to have a data protection section on your website and consider including the following documents:

Template Privacy Notices can be found here: [Privacy Notices](#)

Website documents:

- [GDPR/data protection policy](#)
- [Privacy notice\(s\)](#)
- [SAR](#) and [data breach procedure](#)
- [FOI and publication scheme](#)
- [Supplier/third party list](#)

Other useful documents to review and check that you have are:

- Work away from school policy
- Information Security/Passwords
- Review of consent documentation. Consent guidance and consent withdrawal can also be added to the GDPR section of the school website

Awareness - this can be raised for staff through the use of posters around the school: <https://dataprotection.education/best-practice-library/documents/drip-feeds>

FOI Info/Advice is here: <https://dataprotection.education/index.php/best-practice-library/best-practice/freedom-of-information>

If you have any questions then please do not hesitate to contact me or email dpo@dataprotection.education.

I will shortly send you through the invite for April 27th, I look forward to seeing you then.

Many thanks,

Tammy Buchanan
Data Protection Consultant

BSc(Hons) Computer Science

ITIL 4 Service Management, NCFE Principles of Cyber Security
