To: Fleur Piddlesden <fleurpiddlesden@stmargarets.brighton-hove.sch.uk>

Bcc: Tammy Buchanan <tammy.buchanan@dataprotection.education>

Hi Fleur,

Thanks for your time today. It was good to see you again. Please find below details of what we discussed and further information:

You advised that staff have completed the SAR, data breaches and Introduction to Data protection courses, including the governors. Relevant posters have also been put up about the school.

The data protection policy has been updated on the school website.

Cyber security - the NCSC (National Cyber Security Centre) advise staff to complete their training online: <https://dataprotection.education/courses-heading/ncsc-cyber-security-training-for-school-staff>

They also provide a list of questions that governors should ask:

<https://www.ncsc.gov.uk/information/school-governor-questions>

Advise that staff should be aware of any cyber risks from phishing emails as schools are targets. Further information about that can be found in the News section on our website:

<https://dataprotection.education/news-top/news>

Third-party suppliers- advised having a list of suppliers that you share pupil, staff, visitor and parent information with. This is sometimes listed as a table at the end of each privacy notice. Our example privacy notices are here: <https://dataprotection.education/best-practice-library/best-practice/transparency>

Examples of third party suppliers are:

Pupil MIS, parent comms, cool milk, Local authority, next school, residentials, photographer, curriculum based apps, Tapestry, Seesaw etc. This school have a good list of examples:

<https://www.trowseprimaryschool.co.uk/key-information/gdpr>

Further information about supplier due diligence can be found here:

<https://dataprotection.education/best-practice-library/best-practice/due-diligence-best-practice-area>

If you send your list through to me when complete I will add it onto the Knowledgebank for St Margaret's Primary School.

Information Security - you advised that you have a policy of not allowing USB sticks - it may be worth contacting your ICT provider to ask if your anti-virus can do a physical check as visitors/new staff may not be aware of the policy. There are PIN codes on printers. Only two laptops that use VPN for home use with restricted users. School Ping is used for parent comms which reduces the risk of data breaches.

DPE have a number of resources for information security:

<https://dataprotection.education/best-practice-library/documents/information-technology-security>

There is also an information security best practice area with policy documentation, links to other related best practice areas (passwords) and lots of content regarding latest threats in the sector:

<https://ico.org.uk/for-organisations/guide-to-data-protection/introduction-to-dpa-2018/about-the-dpa-2018/>

Data Retention - advised checking the data retention schedule and look at both paper and digital copies of files and folders. Also consider photos on the school website and iPads in relation to children that may have left the school.

I will shortly send a meeting invite through for Math 17th for an in person meeting to do a data walk around the school. I look forward to seeing you then. If you have any further queries, please do not hesitate to contact me.

Many thanks,

Tammy Buchanan
Data Protection Consultant

BSc(Hons) Computer Science

ITIL 4 Service Management, NCFE Principles of Cyber Security
