To: James England <james.england@dataprotection.education>, J Thorp <J.Thorp@darrickwood.bromley.sch.uk>, j.simpson@darrickwood.bromley.sch.uk

Bcc: Tammy Buchanan <tammy.buchanan@dataprotection.education>

Hi both,

Thank you for your time today. Please find below the details discussed at the meeting and actions going forward:

VEO - Joe explained how the VEO footage is recorded, uploaded to the cloud and then shared either with AQA for A level exam purposes or shared on Instagram (possibly the school website at a later date) for marketing purposes, but also so that pupils can critique their own games.

We discussed whether the opposing teams have permission for their pupils to be filmed and shared and how that information might be obtained. Speaking to the teacher of the opposing game just before is not enough, as they are not able to obtain consent on behalf of the pupils. As footage for A level purposes is required for the pupil this can be obtained under the legal basis of task in the public interest. James advised that a privacy notice advising pupils/staff of this would be useful and will look into this. We will also look into the sharing of footage from games other than for exam purposes.

Due Diligence - I will work with Victoria, our legal director, on the due diligence for AQA, VEO and SOCS.

A reminder that any pupils that have left the school would need their accounts removing and any footage associated with them in line with the data retention schedule.

James advised that a risk assessment might be required by Darrick Wood.

James advised to have a policy around students being able to download/record their own footage from VEO from home and what might be done with that footage.

There was discussion around notifying parents of games (which could include a privacy notice in the future) . Darrick Wood are looking at SOCS for this as mentioned above.

Many thanks,

Tammy Buchanan
