Hi all,

Thank you for your time today. It was good to meet you all. Please find below details of our meeting and any information I said I would send through - although please do not hesitate to contact me if I have forgotten anything -

Training - you advised that staff receive their data protection training through Educare, but that you will check that this is done at the required intervals and that it is recorded. The ICO advises that staff should generally undertake data protection training every two years, but we would advise that any staff that have access to more data or confidential data do this annually. Just a reminder that this training should also be part of the onboarding process for new staff whatever time in the year they join - this is something that you will check.

Posters is another way to train staff: <https://dataprotection.education/best-practice-library/documents/drip-feeds>

I have sent an email and copied Michelle in for an online demo of the Knowledge Bank.

The Data Breach Best Practice Area is a good source of information for informing staff about Data Breaches: <https://dataprotection.education/best-practice-library/best-practice/data-breaches>

Here is the link to the infographic for staff that I mentioned: <https://dataprotection.education/best-practice-library/documents/drip-feeds/57-dpe-quick-reference-guide>

Data walks/Making the Rounds: we discussed doing some data walks/making the rounds. It is possible to do these yourselves and then I can provide some feedback. They can be found under the MyActivities menu. Just a reminder that I do not receive a notification that one has been done, so please email me if you do get the time to upload one.

Checklists: The checklists: <https://dataprotection.education/best-practice-library/checklist> will be a good way for us to understand where each school is with their data protection. The ones I would recommend starting with are:

Password

Photos and video - we also discussed this in relation to removing photos from any mobile devices and you will check the procedure for that.

Clear Desk

CCTV

Supplier Due Diligence

Data Retention & Destruction

Information/Cyber security

ICO Accountability Framework - I talked about how this is something that the ICO uses to measure where trusts are with data protection. In order to share this with you, I need you to please set up a shared folder for me to add documents to that we will both update.

Data Retention List - I am checking the status of this with James.

I will shortly send through a meeting request for our next meeting in June. I look forward to seeing you then, have a good Easter!

Many thanks,

Tammy Buchanan
Data Protection Consultant

BSc(Hons) Computer Science

ITIL 4 Service Management, NCFE Principles of Cyber Security
