Hi Abi,

Thanks for your time today. It was good to see you again. Please find below notes from the meeting:

Due Diligence - we checked and Rae has put all the third parties that Downs View use into the KB, although they are mostly unassessed. This work will continue with DPE as they do their due diligence on the main school suppliers. I would recommend that if you take on any new suppliers (like the electronic sign in system), that you send them the due diligence form for completion and then upload it to the Knowledge Bank for Victoria to assess. The form is here: <https://dataprotection.education/best-practice-library/documents/procedures/135-supplier-due-diligence-form>

Training - you advised that training is ongoing and have a training day booked for 5th June for which you are using some of the materials I have already sent you. You will contact me if there are any questions.

News - a reminder that not all the news articles on the DPE News page need a login for the Knowledge Bank so could be good to send to staff for awareness training i.e. the article about a school recently having a cyber attack

MTR Update - you advised of all the changes you have put in place since the Making the Rounds visit, including fobs on office doors and the staffroom and removing the medical files from the corridor walls.

Checklists - you will have a look at the checklists on the DPE website as this will give an overview of where you are and is something that could be given to governors if required, but will also give us an indication of what we need to do next.

Next time your new website should be online so we can take a look at that.

I will shortly send you an invite through for our next online meeting on 20th September at 10:30 am - I look forward to seeing you then.

Have a lovely Summer!

Many thanks,

Tammy Buchanan
